PROCLAMATION 2605

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA
A PROCLAMATION

The flag of the United States of America is universally representative of the principles of the justice, liberty, and democracy enjoyed by the people of the United States; and

People all over the world recognize the flag of the United States as symbolic of the United States; and

The effective prosecution of the war requires a proper understanding by the people of other countries of the material assistance being given by the Government of the United States:

NOW, THEREFORE, by virtue of the power vested in me by the Constitution and laws of the United States, particularly by the Joint Resolution approved June 22, 1942, as amended by the Joint Resolution approved December 22, 1942, as President and Commander in Chief, it is hereby proclaimed as follows:

1. The use of the flag of the United States or any representation thereof, if approved by the Foreign Economic Administration, on labels, packages, cartons, cases, or other containers for articles or products of the United States intended for export as lend-lease aid, as relief and rehabilitation aid, or as emergency supplies for the Territories and possessions of the United States, or similar purposes, shall be considered a proper use of the flag of the United States and consistent with the honor and respect due to the flag.

2. If any article or product so labelled, packaged or otherwise bearing the flag of the United States or any representation thereof, as provided for in section 1, should, by force of circumstances, be diverted to the ordinary channels of domestic trade, no person shall be considered as violating the rules and customs pertaining to the display of the flag of the United States, as set forth in the Joint

Resolution approved June 22, 1942, as amended by the Joint Resolution approved December 22, 1942 (U.S.C., Supp. II, title 36, secs. 171-178) for possessing, transporting, displaying, selling, or otherwise transferring any such article or product solely because the label, package, carton, case, or other container bears the flag of the United States or any representation thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the city of Washington this 18th day of February in the year of our Lord nineteen hundred and [SEAL] forty-four, and of the Independence of the United States of America the one hundred and sixty-eighth.

EXECUTIVE ORDER 9424

ESTABLISHING IN THE UNITED STATES PATENT OFFICE A REGISTER OF GOVERNMENT INTERESTS IN PATENTS AND APPLICATIONS FOR PATENTS

WHEREAS there exists among the several executive departments and agencies a need for a more adequate source of information with respect to patent rights and interests owned or controlled by the United States Government; and

WHEREAS the establishment in the United States Patent Office, Department of Commerce, of a separate register for the recording of such patent rights and interests would meet this need and would be in the public interest:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

1. The Secretary of Commerce shall cause to be established in the United States Patent Office a separate register for the recording of all rights and interests of the Government in or under patents and applications for patents.

2. The several departments and other executive agencies of the Government, including Government-owned or Government-controlled corporations, shall forward promptly to the Commissioner of Patents for recording in the separate register provided for in paragraph 1 hereof all licenses, assignments, or other interests of the Government in or under patents or applications for patents, in accordance with such rules and regulations as may be prescribed pursuant to paragraph 4 hereof; but the lack of recordation in such register of any right or

interest of the Government in or under any patent or application therefor shall not prejudice in any way the assertion of such right or interest by the Government.

3. The register shall be open to inspection except as to such entries or documents which, in the opinion of the department or agency submitting them for recording, should be maintained in secrecy: *Provided, however,* That the right of inspection may be restricted to authorized representatives of the Government pending the final report to the President by the National Patent Planning Commission under Executive Order No. 8977 of December 12, 1941,¹ and action thereon by the President.

4. The Commissioner of Patents, with the approval of the Secretary of Commerce, shall prescribe such rules and regulations as he may deem necessary to effectuate the purposes of this order.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter V—Military Reservations and National Cemeteries

PART 52—REGULATIONS AFFECTING MILITARY RESERVATIONS

PRIVATE CEMETERIES WITHIN MILITARY RESERVATIONS

Section 52.24, pertaining to private cemeteries within the boundaries of military reservations, is added as follows:

§ 52.24 *Private cemeteries*—(a) *Within boundaries of military reservations owned in fee by United States*—(1) *General.* The policy of the War Department is to acquire title to all cemeteries within the boundaries of military reservations owned in fee by the United States whether or not the bodies are to be removed.

(2) *Removal of bodies.* If the cemetery will not interfere with construction, maintenance, and operation of the post, camp, station, or other installation of the War Department, the removal of bodies will not be required. When it has been determined that the cemetery will interfere with the proposed use of the reservation, the division engineer will taken action in accordance with existing policies and procedures.

(3) *Responsibilities for care, maintenance, and control*—(i) *Fencing, policing, and patrolling.* Commanding officers are responsible for protection of the cemetery by fencing, policing, and patrolling.

(ii) *Permits by commanding officers.* Commanding officers are encouraged and authorized to grant permission, whenever practicable, under such rules and regulations as may be deemed ad-

¹ 6 F.R. 6441.

visable, to families, friends, organizations, cemetery associations, or other proper parties to visit the cemetery, conduct religious ceremonies therein, remove bodies interred therein, and to perform maintenance work.

(iii) *Rights of burial.* There is no legal authority for granting permission for the interment of bodies in private cemeteries, title to which has been acquired by the United States in connection with the establishment of a military reservation.

(iv) *Care and maintenance.* There is no authority of law for the expenditure of funds for the improvement of such cemeteries. It is the responsibility of the post commander, under the provisions of Army Regulations, to insure that the cemetery is kept in a clean and attractive condition. This responsibility of the post commander will be carried out by the post engineer and will include such maintenance work as may be necessary or incidental to the upkeep of the cemetery, including grounds, lawns, trees, shrubs, plants, roads, walks, drains, fences, and walls.

(b) *Within boundaries of military reservations leased by United States.* Areas leased by the United States for military purposes may contain private cemeteries. The United States as a general rule does not acquire any rights in such cemeteries unless the cemetery interferes with the administration of the area for military uses. In such cases, the rights of the interested parties are defined in an agreement made by and between the division engineer and the interested parties, upon the recommendation of the commanding officer. A copy of the agreement is furnished the commanding officer for his guidance in administering the area. Commanding officers will provide for protection of the cemetery by fencing, policing, and patrolling when necessary. (R.S. 161; 5 U.S.C. 22) [W. D. Cir. 64, 11 February 1944]

TITLE 24—HOUSING CREDIT

Chapter IV—Home Owners Loan Corporation

[Bulletin 254]

PART 402—LOAN SERVICE DIVISION MISCELLANEOUS AMENDMENTS

Part 402 is amended as follows:

Section 402.16 (a) shall be amended to read as follows:

§ 402.16 *Reconditioning.*—(a) *Advances for reconditioning.* The General Manager may authorize advances for the account of borrowers, vendees, and transferees to accomplish reconditioning of any nature whatsoever, including advances for reconditioning which has been partially or fully performed by home owners not in conformance with established regulations, provided such reconditioning is determined to be in the best interest of the Corporation in order to protect its security, to facilitate the collection of the indebtedness owing to the Corporation, or to promote the orderly liquidation of the assets of the Corporation; and may incur and approve the amount and payment of fees and expenses in connection with such advances, except legal fees and expenses which shall be incurred, approved, and paid as provided in Part 406 of this chapter.

The authority herein granted may be exercised, also, by the regional manager, with the advice of the regional counsel, in those cases where he determines that an advance for reconditioning is in the best interest of the Corporation in order to protect its security or to facilitate the collection of the indebtedness owing to the Corporation, *Provided*, The amount to be authorized (exclusive of legal and inspection fees) does not exceed \$1,000.

Section 402.16-5 shall be added, which shall read as follows:

§ 402.16-5 *Incidental expenses.* All funds advanced by the Corporation to the home owner for expenses shall be included in the accepted and approved

form of the debt or lien instrument. If the advance is disallowed, the funds advanced by the Corporation for expenses shall be charged to the home owner's account pursuant to the provisions of Form 529-A-R7AB.

Repayment of advances. An advance to a home owner for reconditioning shall be repaid "on demand" or "in monthly instalments," as may be determined by the regional manager, who shall notify the regional accountant of the time and manner of the repayment plan. When the advance is to be repayable "in monthly instalments," the total period of repayment shall not exceed the unexpired term of the Corporation's loan, or as extended, nor the statutory period of limitations, and shall be fixed with reference to the estimated life of the reconditioning and the home owner's ability to repay.

Section 402.16-6 shall be amended to read as follows:

§ 402.16-6 *Home office approval.* If the amount of the advance to be authorized (exclusive of legal and inspection fees) exceeds \$1,000, or, regardless of the amount, if the regional manager determines that any part of the advance for reconditioning is in the best interest of the Corporation in order to promote orderly liquidation of the assets of the Corporation, he shall forward the file, together with his recommendation, to the General Manager for determination.

In any cases wherein it appears that an advance may not be authorized due to any of the following circumstances, and the regional manager is of the opinion that it is to the best interest of the Corporation to grant an advance notwithstanding, the case may be submitted to the home office for the review and approval of the General Manager. Each such case shall be submitted to the Deputy General Manager in Charge of Loan Service and the Director of Reconditioning for their review and recommendation and to the legal department for advice:

1. Where the home owner cannot effect subordination or release of liens, except taxes and assessments, which are prior to the lien obtained for the advance;
2. Where it is impracticable to require the home owner to effect subordination or release of intervening liens;
3. Where, because of emergency or for other reasons, it is impracticable to require title examination;
4. Where it is impracticable or impossible to obtain the execution of the required security instrument by any or all parties in interest or title and the advance would not be secured as a lien under the Corporation's loan instrument. (In each such case, the file shall contain the opinion of the regional counsel as to the legal rights and remedies of the Corporation to establish and enforce a lien for such reconditioning as against any or all parties in interest or title.);
5. Where an advance cannot be made in full compliance with procedure regulations, or where the regional manager seeks the advice or the decision of the General Manager as to the eligibility of the home owner for an advance under § 402.16 (a).

Section 402.16-7 shall be added to read as follows:

§ 402.16-7 *Reports and legal advice.* In special cases, if the regional manager

determines that Form R-4-D and/or an appraisal report is necessary prior to consideration by him, the case may be referred to the Reconditioning Section and/or the Appraisal Section for the desired reports. Ordinarily, the legal requirements will be indicated by the regional counsel in Block VI after authorization of an advance by the regional manager. However, in any special case where the regional manager requires it, Block VI may be completed prior to consideration of the case by the regional manager.

Title examination. Title examination is not required when the estimated cost of reconditioning is \$500 or less. Title examination is required when the estimated cost of reconditioning is greater than \$500, unless regional counsel waives title examination and certifies as his opinion that the advance will be secured as a lien under the Corporation's loan instrument and such lien will be prior to encumbrances, except taxes and assessments, which intervened or may intervene between the date of the Corporation's loan and the date of the additional lien to be obtained.

Where title examination is required and intervening liens are disclosed, the home owner shall effect subordination or discharge of all such liens, except liens for taxes and assessments, without expense to the Corporation. If the home owner is unable to effect subordination or release of such liens, the regional manager shall be notified.

Section 402.16-13 shall be added, which shall read as follows:

§ 402.16-13 *Advances for reconditioning partially or fully completed.* When application Form 529-A-R7AB requests an advance for reconditioning which has been partially or fully performed by a home owner not in conformance with the standard regulations, the case shall be reviewed by the control supervisor and the Analysis and Review Section, who shall make a recommendation to the regional manager. If the regional manager approves the further consideration of the advance, the case shall be referred to the regional reconditioning supervisor, who shall cause the necessary inspections to be made, and he shall indicate on the form whether the reconditioning has been performed in a satisfactory manner or whether it will be performed under the supervision of the Reconditioning Section. He also shall indicate the actual or estimated reasonable cost of the reconditioning. Acting upon the recommendations of the Loan Service Division and the information of the regional reconditioning supervisor, the regional manager may grant an advance for such repairs within the limitations of his authority.

Section 402.16-14 shall be added, which shall read as follows:

§ 402.16-14 *Catastrophe.* The General Manager is authorized in an emergency to raise the limitations of authority of the regional manager for the purpose of reconditioning properties which have been damaged or destroyed by flood, earthquake, cyclone, or other catastrophe, and is authorized to waive full compliance with the regulations insofar

as a need exists. In each such situation, the Director of Reconditioning and the Deputy General Manager in Charge of Loan Service shall make recommendation to the General Manager.

Effective February 18, 1944.

AUTHORITY: Secs. 4 (a), 4 (k), 48 Stat. 129, 132, as amended by sec. 13, 48 Stat. 647; 12 U.S.C. 1463 (a), (k), E.O. 9070, 7 F.R. 1529.

§ 405.00 Organization. The Reconditioning Section shall function under the administrative direction and supervision of the General Manager and be under the immediate charge of a Director of Reconditioning who shall have necessary authority to carry out the rules and regulations of the Corporation relating to matters within the jurisdiction of the Section, and who shall establish qualification standards for all salaried and fee personnel of the Reconditioning Section who perform reconditioning functions of a technical nature, and shall be responsible for the establishment and approval of fees, and cause to be provided such qualified and competent salaried, W. A. E., and fee personnel as may be necessary.

Field staff. The activities of the Reconditioning Section in the field shall be conducted by regional reconditioning supervisors functioning under the executive authority of managers of their respective offices and assisted by adequate staffs of assistants, inspectors and clerical personnel. Questions of a technical nature shall be submitted by reconditioning supervisors to reconditioning officials next superior for instructions. Copies of all correspondence shall be sent to the managers of the respective offices.

§ 405.00-2 Fee inspectors not employees. A fee inspector is not an agent or an employee of the Corporation. He is a party who has contracted with the Corporation for the performance of certain enumerated services for an agreed fee. A fee inspector is not authorized to obligate the Corporation in any manner, except where specifically authorized by regulations or by an official duly authorized to grant such authority.

Qualifications and duties. Architects, engineers, builders, or other qualified persons, where practicable and to the best interests of the Corporation, shall be engaged on a fee basis for all types of cases, to make any necessary inspections of properties; to prepare sketches for minor reconditioning; to prepare specifications; to furnish cost estimates; to certify approval or disapproval of the reconditioning construction work; and to perform such other special assignments as hereinafter provided. Each applicant for such fee assignments must execute an approved application form.

§ 405.00-3 Assignments. Assignments may be made to any approved fee inspector, irrespective of (1) previous sal-

ary employments by the Corporation, (2) present W. A. E. employment by the Corporation, or (3) previous salaried or W. A. E. service on cases reassigned: *Provided*, That fee service shall not be performed on the same day as W. A. E. employment by the Corporation. The services rendered by the fee inspector shall be conducted under the immediate supervision of the regional reconditioning supervisor or a salaried employee designated by him to exercise such supervision. Reconditioning inspections may be made either on a fee or salaried basis by a qualified inspector at the discretion of the regional reconditioning supervisor.

§ 405.00-4 Fees. The regional manager and regional reconditioning supervisor shall recommend the fees to be established for fee inspection service to the Director of Reconditioning, for submission to and final approval by the General Manager. The fees shall include all incidental costs, such as mileage, photographs, plans, and all expenses incidental to the service to be rendered on each type of case. The approved schedule of fees established in accordance with the procedure shall be used by the regional reconditioning supervisor in determining the fees to be paid to the inspector, except when such supervisor determines a lower fee adequate for the service to be performed.

§ 405.00-5 Fees limited. An individual fee employee shall not receive assignments for inspection services as heretofore described in this part, the compensation for which would exceed \$500 in any given month. Under exceptional circumstances where the best interests of the Corporation require it, the Director of Reconditioning may remove temporarily the limit of \$500, upon the recommendation of the regional manager and regional reconditioning supervisor. Individual contracts for architectural or engineering services for plans or supervision, or both, will not be included in the computation of the \$500 limit of fees for inspection services.

§ 405.00-6 Fee architects and engineers. When the scope of the reconditioning work requires the preparation of sketches or working drawings, together with special specifications, if any, in order to visualize properly the work before the case can be advanced for further consideration, approved architects or engineers may be employed on a fee basis pursuant to the following regulations.

Mortgagor cases. The home owner may cause to be prepared at his own expense such drawings and special specifications for approval of the regional reconditioning supervisor; or, if the home owner so elects, the supervisor may assign a fee architect or engineer for said service, provided the contemplated reconditioning first receives a tentative approval by the regional manager. The fee, with the consent and approval of the owner, shall be established as hereinafter provided.

Acquired property cases. In all cases where architectural or engineering services are engaged by the Corporation on

acquired properties or properties in the process of being acquired, architectural and engineering services shall not be contracted for until the case has received preliminary approval by the regional manager and approval by him for the fee recommended to be paid.

§ 405.00-7 Fees for architectural engineering services. Fees for architectural and engineering services, including the preparation of sketches, working drawings, specifications, and supervision, shall be established by the regional reconditioning supervisor with the approval of the regional manager, and in no instances shall be in excess of the prevailing fee or fees fixed and established by local professional societies. In cases involving advances to home owners, such fees shall be included in the advance and charged to the home owner's account. In the event the reconditioning work is not executed after preliminary approval by the regional manager, and an advance for reconditioning is not made to the home owner, the Corporation may advance the fee, subject to the approval of the Director of Reconditioning, not to exceed 2½% of the estimated cost of the work, *Provided*, The amount so advanced shall not exceed the sum of \$75, and, further, that the sketches or working drawings and specifications submitted shall have been approved by the regional reconditioning supervisor. In all cases of acquired properties or properties in the process of being acquired, payments of fees shall be in accordance with the amount and terms of the fee contract approved by the regional manager, both for partial and fully completed cases.

§ 405.00-8 Fee work unsatisfactory. If the work of any fee inspector, fee architect, or fee engineer is unsatisfactory, the regional reconditioning supervisor shall withhold payment of any fees for such work, direct that no more work be assigned to such individual, and report the same to the Director of Reconditioning.

PROCEDURE AND FUNCTIONS

§ 405.00-11 Standards. The Reconditioning Section shall formulate and establish, under approved procedure, standards of specifications for materials, equipment, and workmanship, and maintain a technical reconditioning service available to mortgagors and to the several divisions of the Corporation.

Master specifications. Unless otherwise specifically provided for in the regulations of reconditioning operations of the Corporation, where the cost of reconditioning exceeds \$25 the master specifications, with any addenda approved by the Director of Reconditioning, are required in the preparation of specifications, reports, and agreements.

In such preparations, the scope of the reconditioning shall be listed under the appropriate trade classifications, and reference made to the applicable section and paragraph of the master specifications governing the nature of the reconditioning.

Any individual job specification prepared otherwise than in accordance with

master specifications is subject to the review and approval of the regional reconditioning supervisor, or persons appointed by him, before the award of the contract.

§ 405.00-12 Execution of forms. The regional manager is authorized to execute on behalf of the Corporation all reconditioning contracts and reconditioning forms in all cases where the expenditure or advance has been authorized in accordance with the regulations. The regional manager may request, in the manner now or hereafter provided, the appointment of deputies to execute forms on his behalf, to exercise any authority, and to perform any duties vested in or required of the regional manager with respect to reconditioning operations; *Provided, however,* That such deputation is limited to the regional reconditioning supervisor and employees of the Reconditioning Section recommended by him. The foregoing limitations with respect to the persons who may be appointed deputies shall not apply to the appointment of deputies to approve, on behalf of the regional manager, vouchers for reimbursement of travel expense and transportation rental, and shall not be construed as prohibiting the appointment of employees of the Property Management Division to execute, as deputies for the regional manager, reconditioning forms when used by that Division in the performance of maintenance repairs.

§ 405.00-13 Contractors. The performance of all reconditioning under the supervision of the Reconditioning Section shall be conducted through qualified and approved contractors. Upon application by qualified contractors, whether an individual, partnership, or Corporation, the regional reconditioning supervisor is authorized to approve such applicants as contractors to perform reconditioning services, and is authorized to terminate the services of such approved contractors for cause or when no longer required. To qualify as a contractor, the applicant shall be honest, dependable, and cooperative; shall possess experience, financial responsibility, organization, and equipment facilities, and shall comply with other regulations prescribed as necessary to perform the reconditioning services required by the Corporation.

§ 405.00-15 Workmen's compensation. In order to qualify as an approved contractor, an applicant must show evidence of compliance with the State Workmen's Compensation Law when the legal department advises that the compensation law is compulsory and that the contractor is subject to the operation of such law.

§ 405.00-16 Public liability insurance. In order to qualify as an approved contractor, the applicant must show evidence of carrying public liability insurance when the legal department advises that the state law imposes upon the owner of a property legal liability to the public for the negligent acts of an independent contractor, his employees, assignees, or agents. In the absence of such legal liability, the regional reconditioning supervisor, with the concur-

rence of the regional manager, may require the contractor to provide public liability insurance if it is determined that appreciable hazards exist in a particular case.

Waiver of insurance. The requirements of this section may be waived in any case in which the regional reconditioning supervisor, with the concurrence of the regional manager, determines it is necessary or advisable in the interests of the Corporation.

§ 405.00-21 Job specifications. Upon receipt of instructions to proceed with the approved reconditioning, the regional reconditioning supervisor shall review the file upon which the approval has been based. If the case has been processed previously on a desk estimate or preliminary inspection, or the case is already authorized and the supervisor deems such data sufficient for the preparation of accurate specifications, he may order their preparation, but in those cases where such data is inadequate, a field inspection shall be ordered to procure proper information for the preparation of specifications.

In those cases where plans and specifications are prepared by fee architects or engineers, the regional reconditioning supervisor shall review such plans and specifications before inviting bids, and determine that same have been prepared to include the authorized scope of work in accordance with the minimum standards of the Reconditioning Section, and that the estimated cost thereof is reasonable and within the authorized amount.

§ 405.00-22 Mechanical tests. In certain instances it may be necessary to obtain a mechanical test of the plumbing, heating, or electrical systems. In any case in which the regional reconditioning supervisor deems it advisable, he may order a mechanical test on an approved form from a contractor, inspector, or other qualified person. Wherever feasible, such test should be made prior to the award of contract. In cases under the jurisdiction of the Property Management Division, the expense for such services shall be based upon the approved schedule of costs.

§ 405.00-23 Special services. In certain cases it may be necessary to perform services of a special character, such as termite or pest control, roofing examinations, mechanical tests, orchard pruning, sanitation, and similar inspections or services. In such cases the fees applicable for such service shall be negotiated, based upon the approved schedule of fees and expense.

§ 405.00-24 Bids. It is the general policy of the Corporation to solicit bids only from qualified and approved contractors. In the event such contractors are not available in the locality, or where the Director of Reconditioning otherwise authorizes, the regional reconditioning supervisor may solicit bids and award contract to a contractor other than an approved one.

Invitation to bid. In all cases where the Corporation engages the contractor, the invitation to bid shall be in rotation

as to class or type of contractor so as to provide equitable distribution of reconditioning cases among all contractors: *Provided, however,* That this practice may be waived by the regional reconditioning supervisor in those localities where the number of contractors is limited, or where an emergency condition exists where contractors are not available, or refuse or are unwilling to submit bids. In mortgage cases, the invitation to bid shall be obtained from qualified and approved contractors selected by the home owner. The Corporation reserves the right to reject any or all bids, and in cases where the bid submitted appears unreasonable or excessive, the regional reconditioning supervisor, where he deems it to the best interests of the Corporation, may solicit additional bids without the necessity of rejecting former bid or bids. A statement shall accompany the voucher disclosing the reason for soliciting the additional bids thus obtained.

Competitive bids. On jobs in excess of \$50, competitive bids shall be solicited from two or more contractors, except in cases of emergency repairs or where it is impossible or impracticable to obtain bids or where necessary to effect an immediate sale or tenancy, or in any other cases authorized by the regulations. A statement shall accompany the voucher, disclosing the reason and justification for waiver of competitive bids.

§ 405.00-25 Award of contracts. It is the general policy of the Corporation to award reconditioning contracts to the lowest acceptable bidder. In cases where the Corporation engages the contractor, a contract may be awarded to a higher bidder when authorized under the regulations or when, upon the written recommendation of the regional reconditioning supervisor, the regional manager determines that it is advantageous for the Corporation to accept a higher bid. In home owner cases, a contract may be awarded to a higher bidder if the home owner deposits with the Corporation the difference between the lowest bid and the higher bid.

Separate contracts. Due to climatic and other justifiable conditions, a separate contract may be awarded for that portion of the reconditioning which can be performed immediately, and an additional contract may be awarded later for the remainder. Where it is to the Corporation's interest, the regional reconditioning supervisor may recommend the award of a separate contract for work of a particular trade or for the purchase and installation of refrigerators, ranges, shades, linoleum, and other fixtures or equipment.

§ 405.00-26 Reconditioning extras and credits. Where the need for extra reconditioning arises subsequent to the award of contract and during the progress of the reconditioning, the regional manager, within the limitations hereinafter prescribed, may authorize generally, or in specific cases, regional reconditioning supervisors, or salaried or fee reconditioning inspectors, to award supplementary contracts for extras or credits, providing the total amount of the original and

supplementary contracts shall not exceed the sum authorized for reconditioning in any case unless a greater amount than originally authorized is approved.

When authorized, the regional reconditioning supervisor or inspector may direct the contractor to begin the performance of the extra reconditioning immediately after obtaining a supplemental contract executed by the contractor. Such extra reconditioning shall be evidenced on the supplemental contract form or approved substitute and shall be transmitted to the regional manager or the deputized regional reconditioning supervisor for execution. Competitive bids are not required in the award of extra contracts.

Acquired property cases. On properties under the jurisdiction of the Property Management Division or on properties upon which a sale is completed and reconditioning was previously authorized, the regional manager may authorize generally, in writing or verbally in specific cases, reconditioning supervisors or reconditioning inspectors to award a contract for extra reconditioning, provided that the cost thereof shall not exceed \$100 in those cases where the amount originally authorized was \$500 or less, and *Provided*, That the cost of such items or extras shall not exceed \$200 in those cases where the amount originally authorized exceeded \$500. These amounts are in addition to the amount originally authorized.

Extras; home owner cases. On properties securing liens of the Corporation or sold by the Corporation where the sum of the original reconditioning contract amount, together with the cost of the extra, does not exceed the amount of the original authorization, the regional manager may authorize such extra reconditioning. If the sum of the original contract amount, together with the cost of the extra, exceeds the amount of the original authorization, the regional manager may authorize such extra reconditioning with the concurring approval of the home owner. Authorized extra reconditioning shall be evidenced on an approved supplemental contract form. Competitive bids are not required.

Credits. Where the need arises for the omission from the contract of certain reconditioning in connection with properties securing liens of the Corporation, or properties acquired or sold by the Corporation, the regional manager may authorize the regional reconditioning supervisor, either generally in writing or verbally in specific cases, to effect a credit in a fair and reasonable amount. The agreement for the omission of reconditioning shall be evidenced on an approved supplemental contract form and shall be signed by the home owner and contractor.

§ 405.00-27 Partial payments. Where the amount of a reconditioning contract is substantial, or where full performance of the contract is delayed or prevented because of conditions beyond the control of the contractor, such as weather, strikes or other exceptional circumstances, the regional manager is authorized to effect

partial payment to the contractor in an amount not to exceed 85% of the fair and reasonable cost of the completed reconditioning. In any such case, the regional manager may require a performance and payment bond or other acceptable indemnity, at the contractor's expense, in such form as prescribed by the Legal Department. In the event such indemnity is not required, the prescribed evidence for avoidance of mechanics' liens shall be obtained.

§ 405.00-33 Chattels. When requested, the reconditioning section shall inspect and determine the value of any chattels used in connection with any property upon which the Corporation holds a mortgage or other lien, or in connection with any property under the jurisdiction of the Property Management Division. The regional reconditioning supervisor shall make recommendations as to whether it is to the Corporation's interest to permit removal or to settle or acquire any lien upon or interest in any such chattel as provided in Part 406.

ACQUIRED PROPERTY CASES

§ 405.01-4 Work order cases. In maintenance cases referred to the Reconditioning Section, where the estimated cost of maintenance, reconditioning materials, or services does not exceed \$50, the regional reconditioning supervisor may contact a qualified contractor, mechanic, or material dealer by telephone or other means and negotiate a reasonable price within the amount authorized for such work, materials, or services, and may undertake to have it performed or delivered immediately. In such cases, a description of the work, materials, or services, and the cost thereof shall be prepared on a form approved for such purpose.

§ 405.01-6 Receivership cases. Receivership cases of reconditioning will arise on properties under the jurisdiction of a local court, wherein the court has appointed a receiver to assume custody of the property. In such cases, the technical assistance and facilities of the Reconditioning Section may be made available to receivers by the regional manager with the advice of regional counsel.

§ 405.01-7 Manager's approval. After approving the required reconditioning, the regional manager shall direct written authorization with appropriate instructions to the regional reconditioning supervisor on an approved form, advising him of the scope of work to be undertaken and the amount approved therefor, with instructions to proceed with the reconditioning. Such authorization, when received by the reconditioning section, shall constitute full authority for the regional reconditioning supervisor to proceed with the preparation of specifications, obtaining bids, and awarding reconditioning contracts.

§ 405.01-11 Reconditioning by purchaser. In cases where the agreement for sale provides for reconditioning to be performed by the purchaser at his expense, inspection of the property shall be made as may be determined necessary by the regional manager. In such cases

where the nature and scope of work are minor repairs or maintenance items, the inspection may be made by a representative of the Loan Service Division, but in cases where the work is technical or of a structural nature the inspection shall be made by a reconditioning inspector. In the event the work is not being satisfactorily performed or has not been satisfactorily completed, such fact, together with recommendations, shall be reported promptly to the regional manager.

MAINTENANCE PERFORMED BY CONTRACT BROKERS

§ 405.01-15 Assistance by reconditioning section. In the performance of authorized maintenance repairs and purchase of equipment incidental thereto by contract brokers for properties in their charge, the regional reconditioning supervisor shall provide the broker with technical advice, the technical facilities and all required forms and instructions of the Reconditioning Section, in order to assist contract brokers in the preparation of suitable specifications, awarding of contracts, and supervision of work in accordance with established reconditioning practices, and the procurement of contractors' receipts, releases, and waivers of lien, as required.

§ 405.01-16 Obtaining of bids by brokers. Contract brokers shall prepare suitable specifications on Form R-26 in those cases which must be submitted for the approval of the regional manager. At least two competitive bids shall be obtained for the work, except where the cost thereof does not exceed \$50 or where it is not practicable to secure such bids because of the urgency of the situation, the limited number of available contractors willing to submit bids, or for other reasons. The contract broker shall forward the bids, together with his recommendations through the Reconditioning Section to the regional manager for consideration.

§ 405.01-17 Review by reconditioning supervisor. The recommendation of the contract broker respecting maintenance repairs or equipment incidental thereto shall be referred to the Reconditioning Section. The regional reconditioning supervisor shall review and approve such recommendations as being in conformance with minimum standards and adequate to meet the requirements of the case, both architecturally and structurally, and, in the case of mechanical equipment, as adequate for the purpose intended; and the estimated costs or bids as being fair and reasonable.

§ 405.01-20 Work authorized on bids. Upon authorization of maintenance repairs or the purchase of equipment, a copy of the contract shall be forwarded to the regional reconditioning supervisor, and the appropriate authorization forms, together with two approved copies of the contract, shall be forwarded to the contract broker, who shall deliver one copy of the contract to the contractor with instructions to proceed with the work.

§ 405.01-21 Work authorized on estimates. In cases where the regional

manager's authority to proceed with the work was predicated on estimates submitted by the contract broker, the broker shall be instructed to obtain bids, and forward same through the Reconditioning Section to the regional manager for approval and signature.

§ 405.01-22 Completion report. Upon completion of the repairs, the broker shall inspect the property and, if completed to his satisfaction, shall indicate his approval on one of the executed copies of the contract form, and shall forward the file, including the copy of the contract certified as to completion and the contractor's combination receipt and mechanics' lien release on the approved form, to the regional reconditioning supervisor for review, to determine compliance with prescribed procedure, verification of cost, and for the preparation of vouchers and assembly of all final papers.

RECONDITIONING ADVANCES

§ 405.02-1 Inspections. When an application for an advance for reconditioning is referred to the regional reconditioning supervisor, he shall cause an inspection of the property to be made by an inspector, who shall indicate the extent, necessity, estimated cost, including incidental expenses, and other technical or pertinent information. He also shall obtain from the home owner, if available, the names of the contractors to be used for bidding purposes.

§ 405.02-3 Reconditioning authorized. After approval of the advance, the case shall be returned to the regional reconditioning supervisor, who shall authorize the preparation of specifications and soliciting of bids from approved contractors selected by the home owner, if he so desires. When bids are obtained, the case shall be referred to the legal department, if required. When so required, the legal department shall cause to be executed and recorded, if necessary, the appropriate debt and lien instruments and the appropriate contract forms. In cases not required under the regulations to be referred to the legal department, the Reconditioning Section shall obtain the execution of all required forms.

Before the reconditioning contract is awarded, the contractor and the home owner shall execute the approved contract forms unless the regional manager has been authorized to sign a contract with the contractor on behalf of the Corporation. Upon execution of all required forms, the contract shall be awarded and notice forwarded to the Accounting Division on an approved form, and the regional reconditioning supervisor shall make assignment of the case to a salaried or fee inspector for intermediate and final inspections.

§ 405.02-4 Completion. Upon completion of the reconditioning and its acceptance by the home owner and by the Corporation, the case, including all necessary forms, shall be forwarded for payment, after review by the legal department if required.

§ 405.02-6 Home owner providing labor. When an advance for necessary

repairs or other reconditioning has been approved in accordance with the regulations of the Corporation, and the home owner requests permission to provide the labor in connection therewith, the regional reconditioning supervisor shall investigate the qualifications and reliability of the person who is to perform the labor and make recommendations to the regional manager. If the regional manager determines to permit the home owner to provide the labor, a contingency allowance shall be included in the advance to assure the Corporation of satisfactory performance of the reconditioning by the home owner, and the regional manager, on behalf of the Corporation, may enter into a contract with the home owner on a form approved for the purpose. The home owner, where practicable, should be required to submit bids for all materials in accordance with the bid requirements of the regulations.

Completion. The reconditioning work shall be performed under the supervision of the Reconditioning Section. When the work has been completed to the satisfaction of the Reconditioning Section and the home owner has satisfactorily complied with the provisions and covenants contained in the contract, the bills for materials and all costs other than labor shall be paid in compliance with the regular procedure for reconditioning, and the Reconditioning Section, through the regional manager, shall notify the regional accountant of the amount of the unexpended portion of the advance, which shall be credited to the home owner's account. The total cost of labor and materials shall not exceed the advance authorized. The regional manager, with the advice of the regional counsel, at his discretion, may authorize payment of material bills prior to the final completion of the work when the circumstances justify.

Default. In the event the home owner fails or refuses to provide the labor to complete the reconditioning, he may contract with persons acceptable to the Corporation to perform the remainder of the labor, which shall be paid for by the home owner from his personal funds, or, when approved by the regional manager, from funds available in the advance; or the regional manager may contract with suitable persons to complete the work under such terms and conditions as the regional manager, with the advice of the regional counsel, shall deem to be for the best interest of the Corporation. When any funds from the advance are used to pay for any portion of the labor, only the unexpended portion of the advance shall be credited to the home owner's account.

§ 405.02-7 Approval by home owner. In any case where the home owner refuses to approve the reconditioning after completion, the Corporation, except as otherwise provided, shall make payment to the contractor only in the event the contractor has reduced his claim to judgment. In any case where it is impractical or impossible to obtain the home owner's approval of the reconditioning after completion because of death, incompetency, or other disability,

legal or otherwise, and the cost of such reconditioning is included in and secured by the Corporation's lien instrument, the regional manager, upon the advice of the regional counsel, may authorize payment to the contractor or direct any other appropriate action.

§ 405.02-8 Emergency cases. In the event reconditioning of an emergency nature is required immediately to protect the Corporation's security, the regional manager shall refer the case to the Reconditioning Section, with authorization to proceed with the reconditioning.

§ 405.02-9 Abandoned properties. In the event repairs are necessary to protect vacant, unoccupied, or abandoned properties, the regional manager may process any such case under the regulations governing emergency repairs.

§ 405.02-10 Award in unusual cases. In the event the home owner or other parties are uncooperative or unavailable, or there are other disabilities, legal or otherwise, the regional manager may cause a contract to be awarded on behalf of the Corporation under emergency conditions.

INSURANCE LOSS RESTORATION

§ 405.03-1 Inspection and reports; home owner cases. When an insurance loss case is referred to the Reconditioning Section, the inspection shall make a complete and detailed report of necessary repairs to effect restoration, estimate the cost thereof, obtain a statement as to the home owner's wishes concerning restoration, and submit same to the Reconditioning Supervisor. A copy of the cost report may be given to the home owner for adjustment purposes if he so requests: *Provided*, That the home owner is informed by the inspector that the furnishing of such copy in no way commits the Corporation to apply the loss proceeds to the restoration of the security property.

§ 405.03-3 Restoration commenced by home owner prior to inspection. If the inspection reveals that restoration by the home owner has been commenced without the prior knowledge of the Corporation a report shall be prepared in the same manner as though the repairs had not been started and shall include a report of the scope and amount of work which the home owner contemplates and which is specified in any contract then under way. If the work to be performed by the home owner appears sufficient to satisfactorily restore the security property, this fact shall be included on the report form. The regional reconditioning supervisor shall make such additional inspection assignments as he may deem necessary to protect the Corporation's interests. If the work is not being performed in a satisfactory manner, the regional reconditioning supervisor shall submit the report and his recommendations to the regional manager, forwarding a copy to the control supervisor.

Where it appears that the restoration is being satisfactorily performed, and upon the receipt of appropriate forms executed by the home owner and con-

tractor, lien waivers or releases, as required by the legal department, shall be obtained by the regional reconditioning supervisor, who shall cause to be prepared appropriate vouchers and other final papers. Upon completion of the case, the regional reconditioning supervisor shall indicate on the insurance loss settlement form the expenditures that have been made, and forward it to the Control Supervisor.

§ 405.03-4 *Restoration fully completed by home owner prior to inspection.* Where the inspection reveals the restoration has been fully completed without the prior knowledge of the Corporation, the inspector shall prepare a report, indicating thereon the cost necessary to effect proper restoration, the scope and amount of work which is specified on the contract between the home owner and contractor, and in addition he shall prepare and obtain the proper receipts, releases, or waivers as required by the legal department. The inspector shall inform the home owner and the contractor that the obtaining by the Corporation of the proper receipts, releases, and waivers required by the legal department is not to be understood as in any way committing the Corporation to apply the loss proceeds to the restoration of the security property. The inspector shall certify on his report whether the total cost of restoration incurred by the home owner is commensurate with the amount of reconditioning which was performed in restoring the security property and whether the restoration has been satisfactorily completed.

§ 405.03-5 *Submission of reports and recommendations to control supervisor.* All reports and other forms shall be returned by the inspector to the regional reconditioning supervisor, who shall review and submit his recommendations to the control supervisor, except that receipts, releases, and waivers as required by the legal department may be retained by the Reconditioning Supervisor pending the regional manager's decision regarding the application of the loss proceeds.

§ 405.03-6 *Application of loss proceeds to restoration.* Upon receipt of the regional manager's authorization for the application of the loss proceeds to the restoration of the security property, the Reconditioning Supervisor, where restoration has not been undertaken or completed by the home owner previously, shall approve the award of the contract and conduct of the work, within the amount of insurance funds available, to a contractor of the home owner's choice, acceptable to the Corporation, and otherwise shall handle the case in accordance with reconditioning procedure. Upon completion of the work and execution of an approval by the home owner, such form, together with receipts, releases, and waivers as required by the Legal Department and the inspector's final report and acceptance of the work, shall be sent to the Reconditioning Section for preparation of vouchers and other final papers. When the Reconditioning Section has completed the processing of the case, the regional re-

conditioning supervisor shall indicate on the copy of the authorization the expenditures which have been made, and shall return such form to the control supervisor.

§ 405.03-7 *Modification procedure.* Modifications of this procedure are permitted by the regional manager when home owners desire to undertake restoration themselves with contractors and contracts of their own choice, provided the Reconditioning Section reviews and approves the specifications and contracts presented by the home owner and provided that such deviation from procedure does not jeopardize the interests of the Corporation. When the home owner utilizes the facilities of the Reconditioning Section, the Reconditioning Supervisor shall make the customary final inspection assignment to a reconditioning inspector, providing also for as many intermediate inspections as may be appropriate to the size and scope of the restoration contract.

§ 405.03-8 *Supplementing loss proceeds; escrow account.* If the restoration contract is in an amount in excess of the insurance funds available, the home owner will be required to place an amount equal to the difference between the amount of the restoration contract and the insurance funds available in escrow for disbursement, according to approved procedure. An advance, however, may be made to the home owner to supplement insurance loss proceeds for the restoration of the security property; such advances shall be made in accordance with Part 402 of this chapter.

§ 405.03-9 *Restoration during foreclosure.* Insurance losses on properties in process of foreclosure shall be handled, with the advice of the regional council, as far as practicable under the same procedure as prescribed for losses on home owner properties. In the event the property is under the management of a broker, the case shall be processed in accordance with procedure prescribed for properties under the jurisdiction of the Property Management Division.

§ 405.03-10 *Insurance losses and restoration; Corporation owned properties.* In the event a Corporation-owned property is not in charge of a contract broker or, if in charge of a broker, the broker does not effect the repairs, or the cost of restoration is in excess of the broker's authority to incur expenses, as provided in Part 403 of this chapter, the case shall be assigned to the Reconditioning Section for processing in accordance with the usual procedure governing the reconditioning of properties under the jurisdiction of the Property Management Division. Where a property is owned by the Corporation, vouchers covering restoration costs shall be defined as "loss restoration," and shall have indicated thereon the cost of restoration attributable to the loss by fire, windstorm, or other hazard.

CONSENT TO MAKE IMPROVEMENTS

§ 405.04-1 *Cases processed by the reconditioning section.* In connection with a request by a home owner for the Cor-

poration's consent to the making of alterations or improvements to, or the removal or demolition of, a property securing indebtedness to the Corporation, where the estimated cost of alterations or improvements or the value of the property to be removed or demolished exceeds \$1,000, the control supervisor shall forward the case to the regional reconditioning supervisor, who shall review the request and, if he considers it necessary or desirable, shall cause an inspection report to be made and shall make his recommendation on the appropriate form. Such inspection, if required, shall be made by a salaried inspector if available; otherwise, the inspection may be made by a fee inspector and the cost of such inspection charged to the home owner's account. In the event the estimated cost of alterations or improvements, or the value of the property to be removed or demolished, does not exceed \$100, the regional manager, if he considers it necessary or advisable, may assign the case to the regional reconditioning supervisor for review and recommendation.

The assignment of the case to the Reconditioning Section shall include a statement of the proposed alterations or improvements, or the improvements to be removed or demolished, and any other pertinent information relating to such reconditioning.

§ 405.04-2 *Inspections.* If an inspection report is considered necessary or desirable, the inspector shall visit the property and in conference with the home owner determine, if appropriate, (a) the extent and character of the proposed alterations or improvements; (b) the cost thereof; (c) the manner of accomplishing and paying for such alterations or improvements; and (d) the extent and character of the proposed removal or demolition of the improvements. The inspector shall report his general opinion as to whether the proposed alterations or improvements, or the removal or demolition of the improvements, will impair, decrease, or destroy the value or utility of the premises in any way.

§ 405.04-3 *Consent granted.* Whenever a consent for alterations and removals is approved by the regional manager and the character or extent of the alterations or improvements affects the interest of the Corporation, he shall direct the Reconditioning Section to provide observation of the work undertaken by the home owner. The Reconditioning Supervisor shall assign the case to a salaried inspector if available, or a fee inspector, for the purpose of observing and ascertaining that the interest and security of the Corporation are protected. Upon completion of the alterations or improvements or the removal or demolition thereof, the inspector shall make a final report to the Reconditioning Supervisor.

PARTIAL RELEASES, CONDEMNATION, AND SUBSTITUTION OF SECURITY

§ 405.04-5 *Property visit.* The inspector shall visit the property and in conference with the borrower determine, (a) the extent and effect of the proposed construction work; (b) the cost

thereof; (c) the manner in which the owner proposes to accomplish same, whether by contract or himself; (d) the manner in which he proposes to pay the contractor; and (e) his apparent ability to provide the funds. The inspector shall report his opinion respecting the likelihood of the borrower's accomplishing the construction successfully at the cost contemplated and in such a manner as will not create any structural or architectural damage to the Corporation's interest, and the possibility of mechanics' and materialmen's liens arising. After a review of the inspector's report, the regional reconditioning supervisor shall forward his comments and recommendations, together with the case file, to the regional manager.

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[General Preference Order E-6, as Amended
Feb. 19, 1944]

HAND SERVICE TOOLS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of hand service tools and of alloy steel used in their manufacture, for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3274.51 *General Preference Order E-6—(a) Definitions.* For the purposes of this order:

(1) "Mechanic's hand service tool" means any tool listed on Exhibit A hereto attached which is used by hand, and is made of iron or steel or has a principal component part made of iron or steel.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(3) "Producer" means any person engaged in the production of mechanics' hand service tools.

(4) "WPB-547 order" means any order for mechanics' hand service tools now or hereafter placed with a producer by any person acquiring such tools for his own inventory or shelf stock pursuant to a rating assigned on Form WPB-547 (formerly PD-1X).

(5) "Other order" means any purchase order for mechanics' hand service tools except WPB-547 orders.

(6) "Total monthly production" means either:

(i) The total dollar value of each kind of mechanic's hand service tool listed on Exhibit A hereto attached, scheduled to be produced in any given month by a producer, including both special and standard tools of that kind; or

(ii) The total number of units of each kind of mechanic's hand service tool listed on Exhibit A hereto attached, scheduled to be produced in any given month by a producer.

(b) *Restriction on use of steel.* No producer shall manufacture any mechanics' hand service tools out of any alloy steel except those which are in the series specified in Exhibit B hereto attached or except pursuant to specific permission of the War Production Board.

(c) *Allocation of production between WPB-547 orders and other orders.* Commencing with the month of July 1943 and each month thereafter, each producer shall schedule his total monthly production and the delivery thereof as follows:

(1) To the extent that he has WPB-547 orders on hand, he shall schedule between 20 and 25 percent of his total monthly production of each kind of mechanic's hand service tool specified in Exhibit A hereto attached for delivery against WPB-547 orders requiring delivery in such month. No producer shall schedule any order pursuant to this paragraph (c) (1) unless it clearly appears from such order that the rating applied thereto was assigned on Form WPB-547 (formerly PD-1X).

The sequence of deliveries on WPB-547 orders within the percentage limitation thereon which may be delivered in any given month shall be scheduled according to applicable War Production Board regulations.

(2) To the extent that he has other orders on hand, he shall schedule between 75 and 80 percent of his total monthly production of each kind of mechanic's hand service tool specified in Exhibit A hereto attached for delivery against other orders requiring delivery in such month.

The sequence of deliveries on other orders within the percentage limitation thereon which may be delivered in any given month shall be scheduled according to applicable War Production Board regulations.

(3) Any portion of the percentage allocated to WPB-547 orders which has not been taken up by such orders on or before the fifteenth day of the month preceding the month being scheduled, shall be scheduled for delivery against other orders, and vice versa.

(d) *Necessity for preference ratings and authorizations to place orders.* Notwithstanding any other provisions of this order:

(1) No producer shall sell or deliver any mechanics' hand service tools pursuant to any purchase order placed prior to June 12, 1943 unless such order bears a preference rating of A-9 or higher, nor shall any producer sell or deliver any mechanics' hand service tools pursuant to any purchase order placed subsequent to June 12, 1943 unless such order bears a preference rating of AA-5 or higher, or except pursuant to specific permission of the War Production Board.

(2) [Deleted Feb. 19, 1944]

NOTE: Specific authorization to purchase certain types of mechanics' hand service tools

is now required by Table 12 under General Scheduling Order M-293.

(e) *Restrictions on inventory.* On and after June 12, 1943, no person purchasing more than ten mechanics' hand service tools of any kind specified on Exhibit A shall accept delivery of any such tools the delivery of which will effect an increase in his inventory beyond a supply required by his current practices for use or for resale during a sixty-day period. In the event that the provisions of Suppliers' Inventory Limitation Order L-63 as applied to any supplier as defined in that order are more restrictive, such provisions shall govern. The restrictions on inventory contained in this paragraph (e) shall not apply to the following designated types of purchase orders:

(1) Purchase orders for mechanics' hand service tools made pursuant to the purchaser's special design or specifications which are not standard items in the producer's production schedules.

(2) Purchase orders placed by the Army, Navy, or Maritime Commission for mechanics' hand service tools required for bases or supply depots outside the continental United States (comprising the several States and the District of Columbia), or for bases or supply depots within the continental United States which are maintained for emergency purposes, or to supply such bases or supply depots outside the continental United States.

(3) Any other purchase order specifically excepted from this restriction by the War Production Board.

(f) *Repair parts.* Nothing in this order shall be construed to prevent the sale and delivery of repair parts for mechanics' hand service tools in accordance with applicable regulations and orders of the War Production Board concerning repair parts.

(g) [Revoked Feb. 19, 1944]

(h) *Applicability of General Scheduling Order M-293.* Those mechanics' hand service tools which are listed on the schedule attached to General Scheduling Order M-293 are also subject to the terms and provisions of that order.

(i) *Reports.* Each producer shall execute and file with the War Production Board Form WPB-2057 and such other reports and questionnaires as said Board may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(j) *Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board.

(l) *Communications.* All reports, appeals, and other communications concerning this order shall be addressed to: War Production Board, Tools Division, Washington 25, D. C., Ref.: E-6.

(m) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 3291—CONSUMER'S DURABLE GOODS [Limitation Order L-30-b, Direction 1]

ENAMELED COLD PACK CANNERS

The following direction is issued pursuant to Limitation Order L-30-b:

(a) *What this direction does.* This direction is designed to provide for the production of enameled cold pack canners for use in the 1944 canning season. It permits production before July 1, 1944, only.

(b) *Definition of enameled cold pack canner.* An "enameled cold pack canner" is a covered utensil made of vitreous-enameled iron and steel having a capacity of from 17 to 25 quarts which may be used for canning food products and is designed to hold 7 one-quart jars, 9 one-pint jars or 4 half-gallon jars.

(c) *What sizes of canners may be made.* Each manufacturer is permitted by this direction to make one size of enameled cold pack canner. This may be the same as one of the sizes of stock pots which he makes under Table A of Order L-30-b, or may be made in addition to those sizes, but no cold pack canner made under this direction may be sold by a manufacturer as a stock pot.

(d) *How many cold pack canners may be made.* No manufacturer may produce more enameled cold pack canners before July 1,

1944, than 50% of the number of such canners which he made in the twelve months ending June 30, 1941.

(e) *Effect of Order L-30-b.* Under paragraph (h) of Order L-30-b the iron and steel pack canners may be used in addition to his quotas for civilian orders of enameled ware under paragraph (e) of that Order.

(f) *Wire racks.* Wire racks may be made of carbon steel for use in the enameled cold pack canners to be produced under this direction. Tin may be used in plating these wire racks. These provisions supersede any provisions in Orders M-126 and M-43 which would prevent the use of these materials.

During the period beginning June 17, 1943, and ending December 31, 1943, and during each six month period thereafter, no manufacturer shall produce more replacement cord sets for flat irons than 25% of the number of such replacement cord sets produced by him during the year 1940.

¹ Formerly Part 1130, § 1130.1.

(4) On and after June 17, 1943, no manufacturer shall produce any repair or replacement parts (other than replacement cord sets for flat irons) if he has, or as a result of such production will have, more parts of such type in his inventory than the number of parts of such type which he sold during the preceding six calendar months.

(5) Except in fulfillment of preferred orders, on and after June 17, 1943, no manufacturer or distributor shall transfer any repair or replacement parts unless a similar used part has been delivered to him in exchange therefor, or unless he has been informed that a similar used part is being held or will be secured by the dealer or distributor to whom the new part is being transferred, or has been disposed of in accordance with this paragraph. The used parts shall be held subject to disposition at the direction of the manufacturer or distributor who transferred the new part. If no such direction is given within 60 days, the person holding the used part shall promptly dispose of it through regular scrap channels.

(e) *Restriction on use or transfer of electrical resistance material.* On and after June 17, 1943, no manufacturer shall use in the production of heating units or transfer for any purpose whatsoever, any electrical resistance material reported by him in columns 4 and 8 of Form FD-370 prior to September 30, 1942, except pursuant to specific authorization of the War Production Board on Form WPB-1319 pursuant to an application filed on said Form.

(1) [Deleted Feb. 19, 1944]

(2) [Deleted Feb. 19, 1944]

(f) *Inventory restrictions.* No manufacturer shall accumulate for use in the manufacture of electrical appliances, heating units, or repair or replacement parts, any inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production as permitted by this order.

(g) *Applicability of other orders.* In so far as any other order heretofore or hereafter issued by the Office of Production Management or the War Production Board limits the use of any material in the production of electrical appliances, heating units, or repair or replacement parts to a greater extent than the limits imposed by this order, the provisions of such other order shall govern unless otherwise specified therein.

(h) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(i) *Reports.* Every manufacturer affected by this order shall execute and file Form WPB-1600 (formerly PD-655) with the War Production Board, Washington, 25 D. C., Ref.: L-65, on or before the 10th day following the close of each calendar month.

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[Limitation Order L-145-a]

ANTI-FRICTION BEARINGS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of anti-friction bearings for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3274.67 *Limitation Order L-145-a—*
(a) *Limitation on production of anti-friction bearings.* No person engaged in the production of anti-friction bearings shall hereafter make bearings of any of the sizes specified on Schedule A attached to this order unless he is designated as an "authorized producer" of such size.

A person who is not designated as an "authorized producer" of a particular size listed in Schedule A may refer persons seeking to place orders with him to those who are designated as "authorized producers"; or if he wishes to continue selling this size he may accept orders for such bearings and arrange to have them made by an "authorized producer."

(b) *Maintenance of equipment by persons other than "authorized producers."* Any person who produced any of the sizes specified on Schedule A in 1943 but who is not designated as an "authorized producer" of such size is prohibited from disposing of tools and equipment used by him to make such size and he shall keep these tools and equipment in such condition that whenever the War Production Board deems it necessary to name him an "authorized producer" he can resume production of bearings of such size one month after notice by the War Production Board.

(c) *Exceptions.* The provisions of this order do not apply to:

(1) The production of any bearings listed on Schedule A for which purchase orders have been placed prior to February 19, 1944, even though the person holding such orders is not designated as an "authorized producer";

(2) To any person whose monthly shipments in November 1943 of all anti-friction bearings did not exceed \$60,000.

(d) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(e) *Appeals.* Any appeals from the provisions of this order shall be made by filing a letter in triplicate with the War Production Board, Washington 25, D. C., referring to the particular provision appealed from and stating fully the grounds of the appeal.

(f) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control, and may be deprived of priorities assistance.

(g) *Communications.* All reports to be filed, appeals and other communications, concerning this order, should be addressed to: War Production Board, Tools Division, Washington 25, D. C., Ref: L-145-a.

[Limitation Order L-222 as Amended
Feb. 19, 1944]

FLOOR SANDING, FLOOR FINISHING, FLOOR MAINTENANCE, AND RUG SCRUBBING MACHINES, INDUSTRIAL VACUUM CLEANERS, AND BLOWERS FOR CLEANING PURPOSES

§ 3302.26 Limitation Order L-222—
(a) *Definitions.* For the purpose of this order:

(1) "Floor finishing or floor maintenance machines" means any motorized or hand-powered mechanical device, designed for the purpose of floor finishing or maintenance. The term includes, but is not limited to, the types of machines on List A attached to this order as amended from time to time, and excludes independent motor-operated vacuum producing units, floor sanding machines and machines specifically designed for the manipulation of wet cement.

(2) "Floor finishing" and "floor maintenance" include, but are not limited to, the operations of grinding, staining, sealing, scraping, oiling, waxing or polishing floors or decks, and the collection and removal of dust, grime, oil, reclaimable materials or refuse from floors or decks, either separately or in conjunction with the operations of washing, scraping, sterilizing and wiping floors or decks.

(3) "Floor sanding machines" means machines used for the smoothing of floors or decks, other than stone or tile floors, by the use of abrasives such as, but not limited to, sandpaper and steel wool.

(4) "Rug scrubbing machines" means both portable rug shampooing machines and portable rug scrubbing machines.

(5) "Industrial vacuum cleaners" means machines in which a combination of a motor operated vacuum producer (stationary or portable), an air impeller line and a portable tool with attachments is used primarily for the collection and removal by suction of dust, oil, reclaimable materials or refuse in either the wet or dry state. "Industrial vacuum cleaners" shall not include any vacuum cleaners designed primarily for household use or any motor operated vacuum producing units incorporated in floor sanding, floor finishing or floor maintenance machines.

(6) "Blowers" means combination blowers and exhausters, i. e., machines in which a combination of a motor operated air pressure producer, an air impeller line and a portable tool with attachments is normally used for the removal of dust, materials or refuse by air pressure. "Blowers" shall not include any machines used solely for the handling of air or other gaseous mixtures.

(7) "New machines" means any machines which have neither been used, sold, rented, nor lent for the purpose of being used but includes any machines which have been used only for demonstrations, trial loans, instruction or repair loans.

(8) "Supplies" means replaceable items, such as but not limited to, polishing brushes, cleaning brushes, sanding drums and discs, stones, hoses and bags, wand handles and similar attachments which are expended in the operations of floor sanding, floor finishing, floor maintenance, rug cleaning, vacuum cleaning and air pressure cleaning.

(9) "Manufacturer" means any person engaged in the fabrication or assembly of new floor sanding machines, new floor finishing or floor maintenance machines, new rug scrubbing machines, new industrial vacuum cleaners and new blowers or of parts designed specifically for any of such machines. The term also includes wholesaling or retailing subsidiaries or divisions of such a person.

(10) "Distributor" means any person engaged in the business of selling, renting or lending of new floor sanding machines, new floor finishing or floor maintenance machines, new rug scrubbing machines, new industrial vacuum cleaners and new blowers, other than a manufacturer.

(b) *Restrictions on production*—(1) Floor sanding and floor finishing or floor maintenance machines. Except as permitted by paragraph (b) (4) of this order, no manufacturer shall fabricate or assemble any new floor sanding, floor finishing or floor maintenance machines or parts for such new machines.

(2) Except as permitted by paragraph (b) (4) of this order, no manufacturer shall, after August 5, 1943, fabricate or assemble any new rug scrubbing machines or parts for such new machines.

(3) Except as permitted by paragraph (b) (4) of this order, no manufacturer shall fabricate or assemble any new industrial vacuum cleaners or blowers, or parts for such new cleaners or blowers, except to the extent necessary to fill orders for new industrial vacuum cleaners or blowers authorized on Form PD-722, approved by the War Production Board on Form WPB-1843 (formerly PD-722) before May 16, 1944, or on Form WPB-1319. No application made on such form will be approved unless accompanied by an order rated AA-5 or higher or unless the applicant indicates a need for such machine justifying such rating.

(4) *Repair parts other than supplies.* During the calendar quarter commencing January 1, 1943, and during any calendar quarter thereafter, no manufacturer shall fabricate repair parts having an aggregate manufacturing cost in excess of 2 per cent of that manufacturer's total billed sales of new floor sanding machines, new floor finishing or floor

maintenance machines, new rug scrubbing machines, new industrial vacuum cleaners and new blowers during the calendar year of 1941.

(5) *Supplies.* The restrictions of paragraph (b) of this order shall not apply to the fabrication or assembly of supplies.

(6) *Exceptions.* The War Production Board may, from time to time, specifically authorize one or more manufacturers in writing to commence fabrication, to fabricate or to assemble specified quantities of machines and repair parts otherwise restricted by paragraph (b), or to perform any combination of the foregoing operations.

(c) *Restrictions on transfer.* (1) No manufacturer or distributor shall sell, rent, lend or deliver any of the following types of new machines without authorization on Form WPB-1843 (formerly PD-722) approved by the War Production Board prior to May 16, 1944, or on Form WPB-1319 approved by the War Production Board:

- (i) Drum type floor sanding machines making a 6-inch path or wider;
- (ii) Disc type floor sanding machine making a 10-inch path or wider;
- (iii) Drum type floor finishing or floor maintenance machines making a 6-inch path or wider;
- (iv) Disc type floor finishing or floor maintenance machines making a 10-inch path or wider;
- (v) Rug scrubbing machines;
- (vi) Industrial vacuum cleaners;
- (vii) Blowers.

Such authorizations shall expire thirty days after the date of their issuance unless served in the interim upon the supplier named therein. Within five days after their expiration, all expired authorization forms shall be returned for cancellation to the War Production Board, Service Equipment Division, Washington 25, D. C., Ref.: L-222.

(2) Nothing in this paragraph (c) shall be construed to prohibit the sale, loan, rental or delivery of new machines from one manufacturer or distributor to another to fill an order, or part of an order, received by the latter which has been authorized by the War Production Board on Form WPB-1843 (formerly PD-722) on or before May 16, 1944, Form WPB-1319.

(d) *Procedure for authorization.* All persons making application for the authorization required by paragraph (c) hereof shall make such application on Form WPB-1319.

(e) *Applicability of other orders and regulations.* (1) This order and all transactions affected thereby are subject to all applicable provisions of the regulations and orders of the War Production Board, as amended from time to time.

(2) Nothing in this order shall be construed to permit the production of any machines whose production is prevented by any other orders or regulations of the War Production Board, including § 3302.16, Limitation Order L-91, and § 1176.1, Conservation Order M-126, as amended from time to time.

(f) *Special reports.* (1) On or before July 15, 1943, for the month of June, and

and on or before the 15th day of each month thereafter, for the preceding month, each manufacturer or distributor of new floor sanding machines, new floor finishing or floor maintenance machines, new rug scrubbing machines, new industrial vacuum cleaners and new blowers shall file a monthly report on Form WPB-1867 (formerly PD-723). PART 3270—CONTAINERS

[Supplementary Order L-103-b as Amended
Feb. 19, 1944]

GLASS CONTAINER AND CLOSURE QUOTAS

§ 3270.36 *Supplementary Order L-103-b.* This order lists the only products which may be commercially packed in new machine-made, glass containers or with new metal closures. It specifies closure materials and sets forth the number of glass packages and metal closures which may be used for each listed product. In addition, some restrictions are placed upon the manufacture of closures.

The order limits "commercial packs" only. Although there are certain manufacturing restrictions, the use of glass containers or metal closures for home canning purposes is not affected.

Likewise, the provisions of this order cover only new glass containers and closures. Used containers or closures are not limited. However, closures which are fabricated from used closures—that is, where the used closures are a production material—are regarded as new closures made of "waste" and are governed by the pertinent provisions of this order.

Definitions of the various terms used in this order appear in paragraph (x) hereof.

Restrictions on Use of Glass Containers and Closures

(Note exceptions from these restrictions in paragraphs (p) through (v)).

(a) *Prohibited acceptances and uses of glass containers and closures.* No packer shall accept delivery of or use any new glass container, or any new metal closure for packing any product not listed in a schedule of this order. This restriction insofar as it relates to glass containers shall not go into effect until March 1, 1944.

(b) *Limitations on acceptance and use of glass containers and closures.* Likewise, during any calendar year beginning with 1944, no packer shall accept delivery of or use, for packing any product which is listed in a schedule of this order, more new glass containers or more new metal closures (other than closures made from waste) than his quota for that product. However, jobbers or retailers may obtain closures and glass containers and resell them in conformity with the provisions of this order.

(c) *Closure materials.* No packer shall accept delivery of or use, for packing any product, new metal closures made of any material except those permitted for that product in the schedules of this order. However, blackplate closures (including rejects) may be used wherever tinplate or terneplate is specified, and frozen plate may be used wherever tinplate, terneplate or blackplate is specified. Likewise, closures made of waste may be used in accordance with the following paragraph:

(d) *Closures made of waste.* Closures made of waste shall not be used for packing any product not listed in the schedules attached to this order. Closures made of waste may be used in addition to specified quotas for listed products.

(e) *Home canning jars.* No packer shall pack any commodity in a home canning jar. (Note that the use of these jars for home canning is not restricted).

Quotas

(f) *General.* Closure and glass quotas are stated separately in the attached schedules, and are not necessarily the same for any given product.

Quotas are not interchangeable as between listed products. That is, a packer who packs two products, product A and product B, must compute his quota (in the manner described in the following paragraph (g)) for each product separately. He cannot allot any portion of his quota for product A to product B, even if he does not pack his full quota of product A.

Furthermore, quotas may not be transferred from one packer to another except as provided in Priorities Regulation 7A.

(g) *Computation of quotas.* In most cases where this order provides a quota for the packing of any product, it does so, in the attached schedules, by stating a percentage figure, followed by a calendar year—for instance, 100% 1943. Where this appears in the "glass quota" column opposite a product, it means, unless otherwise specified, that a packer's glass container quota for that product during 1944 and subsequent calendar years is computed as follows:

(1) He takes the number of new glass containers which he used for packing that product during the named base year.

(2) He subtracts the number of new glass containers which he used for packing that product during the named base year and which were quota exempt under the provisions of any prior order of the War Production Board or under any previous amendment of this order.

(3) He multiplies the resulting figure by the applicable percentage.

Identical rules apply to the computation of closure quotas, except that unless otherwise specified they are based on the number of new metal closures used during the specified base period.

The schedules of this order provide that the quotas for some products are based on the number of new metal closures or new glass containers accepted rather than those used during the specified base period. Here again, the method of computation, described in this paragraph, applies, except that the word "accepted" should be substituted for the word "used" in steps 1 and 2 above. Only the new metal closures or the new glass containers which a packer actually accepted delivery of and those which were invoiced to him during the applicable base period may be included in his quota base in such cases. But, for the purpose of making charges against quota, a packer must include the new metal closures and the new glass containers which he

actually accepts delivery of, and those which are set aside for him or held by another party for his account—whether or not they are actually invoiced to him.

In a few cases, the schedules of this order set forth special rules, not covered by the above, for the computation of quotas for particular products. Such rules must be followed, and supersede the general statements contained in this paragraph (g) to the extent that they conflict with them.

(h) *Use of quotas.* As indicated above, most quotas are based on past use. The word "use" refers only to the actual filling operation in the case of glass and the actual capping operation in the case of closures. Therefore, to the extent that a person did not do this directly during the base period, he has no quota, despite the fact that he may have supplied the actual packer with the product, closures, containers, etc. After December 31, 1943, any packing done for him must be within the quota of the person performing the actual filling and capping operation.

In the case of products whose quotas are based upon acceptances, a person is deemed to have "accepted" glass containers or closures (for the purpose of computing quotas) only to the extent that he himself actually took possession of them or had them invoiced to him. If he did not do this during the base period, he has no quota, and the rules stated in the preceding paragraph of this paragraph (h) apply.

Packers who use or accept new glass containers or metal closures for packing products for the account of others, as well as for their own account, must conduct both operations within their own quotas. Without a special appeals grant under this order, they cannot regard their use or acceptances of glass containers and metal closures for the account of others as an addition to their quotas. This is true even where the other person may represent to the packer that he has a quota which he is not using himself.

On the other hand, packers are entitled to include, in their own quota bases, their use or acceptances of new glass containers or new metal closures, for the account of others during the specified base periods.

Restrictions on Sale and Delivery of Glass Containers and Closures

(i) *General restrictions.* No person shall sell or deliver any glass containers or closures which he knows, or has reason to believe, will be accepted or used in violation of any provision of this order.

(j) *Export deliveries.* During any calendar year, no person shall deliver more empty new glass containers or more new metal closures to any person outside of the 48 States of the United States and the District of Columbia

than he delivered to that person during 1943.

(k) *Certificates.* No person shall sell or deliver any new glass containers or new metal closures except under a purchase order or contract validated by the delivery to such person of a purchaser's certificate, signed manually, or as provided in Priorities Regulation 7.

This certificate shall be in substantially the form attached hereto as Exhibit A in the case of sales or deliveries of all glass containers, and of all metal closures except malt and non-alcoholic beverage closures. Attention is called to the fact that this certificate, once filed by a purchaser with a supplier, covers all future deliveries from that supplier to that purchaser.

The certificate should be in substantially the form attached hereto as Exhibit B, where sales or deliveries of malt or non-alcoholic beverage closures are concerned. This certificate differs from Exhibit A in that it must be filed with each purchase order for beverage closures in order to validate the order.

(l) *Outstanding certificates.* Certificates previously filed with a supplier under any previous amendment of this order, shall remain valid insofar as sales or deliveries of glass containers are concerned. Exhibit A certificates previously filed under order M-104, shall remain valid insofar as closure (other than malt or non-alcoholic beverage), deliveries are concerned. In either of the above cases, no new certificate need be filed by any purchaser to validate his orders placed with the supplier to whom the previous certification was made.

(m) *Cases where certificates need not be filed.* No certificates shall be required for the sale or delivery of home canning jars or home canning closures, nor shall any certificates be required for the sale or delivery of any kind of glass containers or closures to: (1) Retailers, for resale empty or unused; or (2) persons purchasing closures or glass containers from retailers.

(n) *Standard certifications.* The standard certification provided for in paragraph (d) of Priorities Regulation 7, cannot be used in place of the certifications provided by this order; nor may the certifications provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

Restrictions Relating Solely to Manufacture of Closures

(o) *Closure material.* (1) No person shall use any zinc, aluminum, tinplate, terneplate, blackplate, frozen plate, waste-waste or waste for the manufacture of the following types of closures:

(i) Cover caps which serve as a protective or decorative closure in addition to any original sealing medium (other than paraffin) such as another closure.

(ii) Double shell or semi-double shell caps.

(iii) Two-piece closures when both pieces are made of metal, except as permitted in paragraph (c) (2).

(2) No person shall use any zinc, aluminum, tinplate, terneplate, blackplate, or wire for the manufacture of any closure of the home canning type, except as, and to the extent permitted in Schedule VII attached to this order. No closure manufactured pursuant to Schedule VII shall knowingly be sold to, or used by, any person for packing any product for sale.

(3) No person shall use any tinplate, terneplate or blackplate heavier than 90 pounds per base box for the manufacture of crown caps. This restriction does not apply to rejects, frozen plate waste, waste, or waste.

(4) No person shall use for the manufacture of closures any tinplate with a tin coating in excess of 1.25 pounds per base box; and all persons manufacturing closures shall, to the greatest extent available, use 0.50 tinplate for the manufacture of closures for which tinplate is permitted by the provisions of this order.

(5) No person shall use any wire for the manufacture of paperboard disc plug caps, having a diameter of two inches or less, for milk bottles.

Exceptions Pertaining to Both Glass Containers and Closures

(p) *Deliveries to certain agencies and persons.* Nothing in this order shall prohibit the purchase, acceptance of delivery, or use (such use to be in addition to any quota specified in the schedules attached to this order) of glass containers or closures by any of the following persons or by any person for packing any product to be delivered to or for the account of any of the following persons:

(1) Army, Navy, Marine Corps, Maritime Commission, or War Shipping Administration of the United States (including persons operating vessels for such Administration or Commission for use thereon).

(2) Any person for packing products for retail sale or distribution through post-exchanges, sales commissaries, officers' messes, servicemen's clubs, ship service stores, or outlets; provided same are located at Army or Navy Camps, are not operated for private profit and are established primarily for the use of Army or Navy enlisted personnel within Army or Navy establishments or on Army or Navy vessels.

(3) American Red Cross, United Service Organizations, or such other nonprofit Defense Recreation Committees, engaged in the operation of recreation centers in the 48 States of the United States or the District of Columbia solely for military personnel, as are certified to be within the exemption provided by this paragraph (p) (3) by the Office of Defense Health and Welfare Services, OEM.

(4) Any agency of the United States purchasing for a foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(q) *Special provisions in schedules relative to exempt deliveries to certain agencies and persons.* The schedules of this order contain certain limitations on the exception provided by the preceding paragraph (p) in the case of certain products—as, for instance, ice cream mix and malt and nonalcoholic beverages. In such cases, the provisions of the schedules are controlling and supersede paragraph (p) to the extent that they conflict therewith.

Exceptions Relative to Glass Containers Only

(r) *Small users.* The restrictions of this order which pertain to glass containers shall not apply to any person during any calendar year in which he accepts no more than a total of five hundred (\$500.00) dollars worth (cost price to him) of empty new glass containers for all products.

(s) *Large size glass containers.* The restrictions of this order which pertain to glass containers shall not apply to any glass container with a capacity larger than 140 fluid ounces.

(t) *Glass containers manufactured prior to the date of this order.* The restrictions of this order shall not prevent any person's acceptance or use, for a product not listed in the schedules of this order, of any glass container manufactured before January 1, 1944, if the glass container in question was originally manufactured for the purpose of packing an unlisted product, or was originally manufactured for packing a listed product but has a capacity not permitted for that product in the attached schedules of this order. This paragraph does not permit the quota free use of glass containers for listed products regardless of when the containers were manufactured.

(u) *Quota free use of certain glass containers in inventory of packer on or before December 31, 1943.* To the extent that as of January 1, 1944, a packer had in his possession, empty glass containers which he was permitted to accept under paragraphs (b) (c) and (d) of order L-103-b as amended November 1, 1943, (excluding containers which he was permitted to accept under paragraph (e) of that order), he may use them during 1944 for packing any listed product in addition to his quota for that product. Nothing in this paragraph shall permit the quota free use of glass containers "borrowed" against anticipated 1944 usage, in accordance with paragraph (e) of this order as amended November 1, 1943.

Exceptions Pertaining to Closures Only

(v) *Small users.* The restrictions of this order which pertain to closures shall not apply to any person during any calendar year in which he accepts no more than five thousand new metal closures for all products.

Prior Appeals

(w) *Appeals granted prior to December 31, 1943 under Order M-104 and Order L-103-b.* All appeals granted prior to December 31, 1943 under orders L-103-b and M-104 are cancelled and shall be ineffective on and after January 1, 1944. Therefore, after that date, no person shall accept delivery of or use or shall manufacture, sell or deliver any new glass container or any new metal closure except in accordance with the provisions of this order—unless he receives a new grant on appeal after January 1, 1944.

SCHEDULES—GENERAL EXPLANATION

Schedules I through VI list the only products which may be packed in new glass containers or with new metal closures. Schedule VII relates to the manufacture of home canning closures.

The data set forth in the two "quota" columns, opposite each product, indicate the number of new glass containers and new metal closures (determined in accordance with the general rules set forth in paragraph (g) of Order L-103-b), which may be used for packing that product. However, any special quota provisions which these sched-

ules make applicable to any product, are controlling to the extent that they conflict with paragraph (g).

The "X" mark which appears opposite each product in one of the columns headed "closure material" indicates that, except as listed hereafter, only closures made of the specified material may be used to pack that product. The general exceptions from this rule are:

(i) Closures made of blackplate (including rejects) may be used, within quotas, wherever tinplate or terneplate is specified.

(ii) Closures made of frozen plate may be used, within quota, wherever either tinplate, terneplate or blackplate is specified.

(iii) Closures made of waste may be used in addition to specified quotas for listed products.

All special provisions of these schedules relating to closure materials for specific products must be followed, and control to the extent that they conflict with the above.

After March 1, 1944 all size specifications for glass containers set forth in these schedules must be followed in addition to the provisions of Order L-103 and its schedules.

Attention is called to paragraphs (p) through (v) of Order L-103-b which establish limited exceptions to the provisions of this order. Here again, any special pro-

visions which these schedules contain relative to quota exemptions—as in the case of ice cream mix and certain beverages—must be observed.

SCHEDULE I—FOODS

No product packed in a can shall be repacked for sale in a glass container by the same or a different person, in the same or a different form, except as follows (or as otherwise specifically permitted in this schedule):

(i) When required for the packing of other products, pineapple may be repacked from No. 10 cans. Grape juice, grape pulp, citrus peel and pulp may be repacked from reusable cans, 5-gallons or larger. Apricots and peaches, solid pie pack, may be repacked from No. 10 cans or larger. No. 10 cans cut under this provision must be properly cleaned and returned to the nearest detinning plant.

(ii) Tomato paste, tomato pulp or puree, and tomato sauce may be repacked from No. 10, or from 5-gallon or larger reusable cans when required for packing other products, or for repacking in different form (other than in the form of tomato paste or tomato pulp or puree), but none may be repacked in the same form. No. 10 cans cut under this provision must be properly cleaned and returned to the nearest detinning plant.

PART 937—ZINC

[General Preference Order M-11 as Amended
Feb. 21, 1944]

SLAB ZINC

§ 937.1 *General Preference Order M-11*—(a) *Scope of this order.* This order controls deliveries of zinc from a producer or dealer. No producer or dealer shall deliver zinc to any person, and no person shall accept delivery of zinc from any producer or dealer, except as provided in this order. The order does not relate to the use which may be made of zinc after it is received. The use of zinc in manufacture is controlled by Conservation Order M-11-b or, in the case of certain specific products, by other orders of the War Production Board relating to those products. These use restrictions must also be complied with.

(b) *Definitions.* (1) "Zinc" means all grades of metallic slab zinc (spelter) produced directly from ores, concentrates or other primary material; or redistilled from zinc scrap, including ashes, dross, skimmings, clippings, castings, engravers' plates, die castings, die cast scrap, or any secondary zinc-bearing material.

(2) "Producer" means any person producing zinc and any person who has zinc produced for him under toll agreement.

(3) "Dealer" means any person who regularly receives physical delivery of zinc and sells or holds the same for resale without changing the form. A person who produces any zinc or who has the same produced for him under toll agreement, is a producer as to such zinc, and not a dealer.

(4) "Toll agreement" means any agreement by which title to material remains vested in a person other than the one processing the material.

(c) *Acceptance of deliveries of zinc from a producer.* (1) Except as specifically authorized by the War Production Board on Form WPE-2893, no person, other than the Metals Reserve Company, or a person accepting delivery pursuant to an export license duly issued by the Foreign Economic Administration, shall accept delivery of zinc from a producer. The Metals Reserve Company may accept deliveries of zinc for the sole purpose of stockpiling or redistribution without change in form.

(2) Any person wishing to apply for an authorization certificate to accept delivery of zinc from a producer should apply for authorization not later than the twelfth day of the month preceding the month in which shipment is desired.

(3) An authorization certificate will authorize the holder to accept from a producer deliveries of specified amounts of zinc shipped during the month for which the certificate is issued. A producer is authorized to ship zinc on notification from the purchaser of the date and serial number of the authorization certificate authorizing him to accept delivery of zinc. Any producer may, with the consent of the purchaser, substitute for any amount of any grade of zinc specified in an authorization certificate an equal amount of any lower grade of zinc. A producer need not accept a new order (other than a new order bearing

a AAA preference rating), although supported by a preference rating or an authorization certificate if his entire production for the month is committed and he has reason to believe that other purchase orders will be presented during the month by the person or persons to whom his production is committed in amounts at least equal to his production.

(4) No producer shall make any delivery of zinc except as permitted under this paragraph (c).

(d) *Acceptance of deliveries of zinc from a dealer.* No specific authorization will be issued by the War Production Board to permit any person to accept deliveries of zinc from a dealer. However, a person may accept delivery of zinc from a dealer only if such delivery meets all the following conditions:

(1) The delivery in question, combined with all other deliveries of zinc to the purchaser during the calendar month, from whatever source, will not aggregate as much as twenty short tons; and

(2) The purchaser has not requested from the War Production Board authorization for that particular month to accept delivery of zinc in any quantity—see paragraph (c) above (a request to the War Production Board shall be deemed a request within the meaning of this paragraph, regardless of whether it has been granted or denied).

A dealer shall not make any delivery if he knows, or has reason to believe, that the person accepting the delivery will not comply with all the provisions of this paragraph.

(e) *Toll agreements.* No person shall produce any zinc under any existing or future toll agreement until and unless he has made a report to the War Production Board, setting forth the names of the parties to such agreement, the material involved as to kind and grade, the form of the same, the estimated tonnage involved, the estimated rate of deliveries, the length of time the agreement or other similar agreement has been in force, the duration of the agreement, the purpose for which the zinc is to be used, and any other pertinent data. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Specific directions.* The War Production Board may, from time to time, issue special directions to any person as to the source, destination, special kinds and amounts of zinc, to be delivered or acquired by any person.

(g) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(h) *Reports.* All producers, dealers, and users of zinc shall file, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, such reports as the War Production Board may from time to time prescribe.

(i) *Communications.* All applications, statements or other communications filed pursuant to this order or concern-

ing the subject matter hereof, should be addressed to: War Production Board, Zinc Division, WPB Dept. 7515, Washington 25, D. C., Ref.: M-11.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(k) *Effective date.* Restrictions of this order with respect to remelt and zinc scrap shall cease to be effective immediately. In other respects, this order as amended June 7, 1943 shall continue in effect until April 1, 1944, on which date this amendment shall become effective.

Issued this 21st day of February 1944.

(2) "Steam surface condenser" means any tube and shell steam condenser used in land installations which employs water in its circulating system to condense the steam exhausted from a prime mover or from the jets of a steam jet air pump.

(b) *Restrictions on materials.* No producer shall install or incorporate, or accept delivery of, for the purpose of installing or incorporating, in any steam surface condenser, whether such condenser be new or used, any of the following:

(1) Cupro-nickel tube sheets, tube sheets which are tin-coated, or tube sheets which contain more than 1.5 per cent of tin by weight.

(v) "User" means any person other than a producer, intermediate processor or processor, who purchases cotton textiles for his own use in the United States in any business, industry, profession or occupation.

(vi) Any person who performs the functions of more than one of the foregoing—regardless of his customary manner of conducting his business—shall, for the purpose of the following be deemed a separate person with respect to each of those capacities, and he is required to:

(a) Accept rated orders for cotton textiles in preference to any other contracts, orders or uses even though he has not in the past accepted or filled orders for that particular cotton textile, and also to fill them in accordance with the rules of Priorities Regulation No. 1;

(b) Use the ratings assigned by this order; and

(c) Apply the inventory restrictions of this order.

(vii) The definitions in subdivisions (i) to (v) above do not include the United States Army, Navy, Maritime Commission or War Shipping Administration.

(3) Trade terms used in this order shall have their usual trade significance unless otherwise specified.

(b) *Assignment of ratings.*² The preference ratings specified in the Preference Rating Schedules of this order are assigned to the persons in Column I for the cotton textiles in Column II to be used only as specified in Column III. The revocation of any rating and its effect is stated in the appropriate group of the Preference Rating Schedules.

(c) *Compulsory use of ratings assigned in schedules or by Form WPB-*

² Conservation Order M-328 permits other preference ratings, as well as those assigned by this order, and imposes conditions on the use of all ratings for cotton textiles.

2842. No intermediate processor, processor or merchant (except a retailer) shall purchase or accept delivery of a cotton textile for a purpose for which a rating for that cotton textile is assigned to him in a Preference Rating Schedule, unless he has applied or extended that rating or a rating assigned on Form WPB-2842. He may not purchase that cotton textile for the specified purpose with any other rating which he may have (whether higher or lower), nor may he purchase it without a rating for that purpose. The provisions of this paragraph do not apply to purchases for delivery or ultimate delivery to, or for incorporation into any product for delivery or ultimate delivery to, the United States Army, Navy, Maritime Commission or War Shipping Administration, nor do they prohibit the use of an AAA rating.

This rule does not change the rating on the finished product. For example, even though a manufacturer (processor), who is given a rating, according to the AA-2X Preference Rating Schedule, to obtain twills to make coated abrasive products, holds an AA-1 order for coated abrasive products, he must use the AA-2X rating given by the schedule to obtain the twills, and may not use the AA-1 rating for this purpose. The AA-1 rating, however, remains applicable to the finished coated abrasive product for all other purposes (such as to determine the sequence of deliveries).

(d) *How ratings for cotton textile are to be applied or extended.* Preference ratings shall be applied and extended as provided in Priorities Regulation 3. In addition, the provisions of subparagraph (1) below shall be followed in the case of products which are to be exported in the form of cotton textiles, and the provisions of subparagraph (2) below are to be followed when cotton textiles are not to be exported.

(1) *Cotton textiles for export.* Except where the cotton textile is for direct or ultimate delivery to, or for incorporation into any product for delivery or ultimate delivery to, the United States Army, Navy, Maritime Commission or War Shipping Administration, the purchaser shall place upon the purchase order an appropriate notation (with the blanks properly filled in), substantially as follows:

These cotton textiles will be exported, or will replace in inventory cotton textiles exported after December 24, 1943.

And also one of the following statements is to be made:

The preference rating was applied by the United States Treasury Procurement Division in connection with contract number

----- [In the case of United States

Treasury Procurement for Foreign Economic Administration];

The preference rating was applied in connection with Export License number _____, or Release Certificate number _____. [In the case of export in connection with licenses or release certificates issued by Foreign Economic Administration]

or

The preference rating was applied in connection with the Canadian Cotton Administrator's serial number _____. [In the case of exports to Canada.]

(This notation is to be used when the rating is for the export of a cotton textile, in the form of cotton textile as defined in this order. When this is done the requirements of M-328 are met and it is unnecessary to use any other notation.)

(2) *Cotton textiles for domestic use.* A person (other than the United States Army, Navy, Maritime Commission or War Shipping Administration on their direct purchase orders), applying or extending a rating for a cotton textile, which was assigned by a Preference Rating Schedule or under a War Production Board form, shall place upon the purchase order an appropriate notation, substantially as follows:

This rating has been assigned by M-317, Group(s) No. _____. [Insert applicable group number or numbers of Preference Rating Schedule.]

or

This rating has been assigned under Form WPB _____, Serial No. _____. [Insert the War Production Board form number and its serial number.]

(This notation is to be used when the rating for a cotton textile, as defined in this order, is assigned by a Preference Rating Schedule or a War Production Board form. When this is done the requirements of M-328 are met and it is unnecessary to use any other notation.)

The standard certification described in Priorities Regulation 7 may be used in applying or extending the rating, but the specific notation of subparagraph (1) or (2) above must be added.

(e) *Restrictions on extension of rating to obtain fiber or yarn.* (1) No person shall use any preference rating which was assigned, applied or extended for cotton textiles in order to obtain any synthetic fiber or synthetic yarn, except cotton textiles for direct or ultimate delivery to, or for incorporation into any

product for direct or ultimate delivery to, the United States Army, Navy, Maritime Commission or War Shipping Administration.

(2) No person shall use any preference rating which was assigned, applied or extended for knitted or woven fabrics, in order to obtain cotton yarns defined in paragraph (a) (1) (ii). If he does not own or control spinning machinery, he may use the rating to obtain cotton yarns for incorporation into products for direct or ultimate delivery to the United States Army, Navy, Maritime Commission or War Shipping Administration. If he does own or control spinning machinery, upon his showing on Form WPB-2842 the extent to which it is insufficient or unsuitable to produce cotton yarns required for incorporation into products for direct or ultimate delivery to the United States Army, Navy, Maritime Commission or War Shipping Administration, the War Production Board may authorize him to use that rating to obtain a specific quantity of cotton yarns for that purpose.

(3) No person owning or controlling spinning machinery shall use any preference rating which was assigned, applied or extended for yarn, in order to obtain cotton yarns defined in paragraph (a) (1) (ii), except to the extent authorized by the War Production Board, upon his showing, on Form WPB-2842, that his own spinning is insufficient or unsuitable to fill that yarn order.

(f) *Obligations in respect of rated orders.* (1) Each producer—even if he is also an intermediate processor, processor, merchant or user—shall, during the first calendar quarter of 1944 and in each succeeding calendar quarter, deliver or set aside for later delivery on rated orders those percentages of his total production (in pounds or yards according to his usual method of operation) of each cotton textile as specified in the Distribution Schedules of this order.

(2) No producer, after January 1, 1944, shall be required to fill rated orders in excess of the percentage of his production of each cotton textile as specified in the Distribution Schedules, computed by calendar quarters.

(3) The War Production Board may establish other percentages with respect to any of the cotton textiles listed in the Distribution Schedules.

(4) No person shall be required to accept any rated order for cotton textiles calling for delivery more than 90 days after the receipt of the order, except from the United States Army, Navy, Maritime Commission or War Shipping Administration.

(g) *Special conditions.* No producer, intermediate processor, processor, merchant or user shall sell, deliver, buy, accept or use a cotton textile or any product containing a cotton textile or assign, apply or extend a preference rating contrary to the provisions in Column III of a Preference Rating Schedule or in Column VI of a Distribution Schedule of this order.

(h) *Exports.* No person shall purchase for export any of the cotton fabrics defined in paragraph (a) (1) (i), other than woven or braided fabrics 12 inches or less in width, except with a preference rated order.

(i) *Inventory restrictions.* No person shall accept delivery of any cotton textiles if his aggregate inventory exceeds or would then exceed the lesser of (1) a practicable minimum working inventory, or (2) his requirements for 90 days (except in the case of merchants and users of cotton textiles used in crop cultivation).

In computing inventory include products in process of manufacture but exclude cotton textiles in transit or in process of conversion.

(j) *Allocation.* The War Production Board may assign preference ratings for or allocate and direct deliveries of cotton textiles pursuant to application on Form WPB-2842.

(k) *Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board.

(l) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal.

(m) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control, and may be deprived of priorities assistance.

(n) *Communications.* All reports to be filed, appeals and other communications concerning this order should be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref.: M-317.

Issued this 21st day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

If receipt of an order which is rated higher than a previously accepted rated order would result in having more rated orders than the Column V percentage, then the lowest rated order shall be displaced and it may be filled only from that percentage applicable to a subsequent quarter.

The provisions and explanations stated in Column VI apply to the producer, intermediate processor, processor, merchant and user and govern the particular cotton textiles, no matter when produced, converted or ordered, and also products containing those textiles. However, the restrictions in Column VI relating to exports do not apply where the export license or release certificate was issued before January 1, 1944.

PART 3290—TEXTILE, CLOTHING AND
LEATHER

[General Conservation Order M-317, Interpretation 1 as Amended Feb. 21, 1944]

COTTON TEXTILE DISTRIBUTION

The following interpretation relates to General Conservation Order M-317 as amended February 21, 1944:

1. Q. Is the denim direction of May 21, 1943, superseded by Order M-317?

A. No. It will continue in effect until expressly revoked in writing.

2. Q. Where a person is given a rating in a preference rating schedule to obtain a particular fabric for a specified end use, is it necessary for that person actually to apply to the War Production Board for the right to use that rating?

A. No. The ratings given by these schedules are assigned in the order and may be applied without application.

3. Q. May a jobber use an AA-5 preference rating to acquire pillow cases in anticipation of business which he expects to get from a hospital?

A. No. The jobber has no rating to use until he receives rated orders from the hospital (user). Only after he has received such an order does the jobber have any rating which he can extend.

4. Q. Suppose, before December 24, 1943, when the order was amended, a spinner of sewing twine had on his books an unfilled and unrated order from a manufacturer of textile bags. Would the manufacturer be allowed to apply an AA-2X preference rating to the remainder of that already placed order?

A. Yes. In Group 1 of the AA-2X preference rating schedule, a processor (manufacturer) is given that rating for sewing twine to be used in the manufacture of textile bags. The rating may be used by him for that purpose, both in connection with unshipped balances of sewing twine orders as well as subsequent orders.

5. Q. Under Group I of the AA-2X preference rating schedule a bag manufacturer is given this rating to obtain flat duck to be used in the manufacture of bags, but he is not given a preference rating to buy this fabric to make tarpaulins. Is he allowed to use flat duck in the manufacture of tarpaulins?

A. Yes. Although the order does not give the bag manufacturer a rating to obtain flat duck to be made into tarpaulins, he is not prohibited from buying flat duck without a preference rating for that purpose. The mill may sell flat duck without a rating to the tarpaulin manufacturer so long as it does not interfere with the filling of rated orders.

6. Q. Does the fact that a particular use or end product is not included in a preference rating schedule mean that no cotton textile may be used for that particular purpose?

A. No. Preference ratings have been given to certain classes of persons to obtain specified cotton textiles for important uses which are described in the preference rating schedules. However, the cotton textiles mentioned in the preference rating schedules or any other cotton textiles may be used for any purpose unless prohibited by Column VI of the distribution schedules of this order or by some other order of the War Production Board.

7. Q. An AA-2X preference rating is given to a manufacturer to obtain window shade cloth for military maps (Group 24). No rat-

ing is given in the preference rating schedules to a window shade manufacturer. Does this mean that the window shade manufacturer must obtain a rating in order to get window shade cloth or that he is not allowed to purchase window shade cloth?

A. No. It merely means that a preference rating is not given to him.

8. Q. Is a cotton mill which normally dyes and sanforizes its own production of gray goods for the purpose of sale to manufacturers of work clothing required to accept a rated order for gray sheeting from a bag manufacturer?

A. Yes. Since a work clothes manufacturer has a rating of AA-4 and the bag manufacturer is given a rating of AA-2X, the gray goods must be sold to the bag manufacturer on the AA-2X rating rather than dyed and sanforized for sale to the work clothes manufacturer.

9. Q. A priority is given by the AA-4 preference rating schedule, Group 1, to a manufacturer to obtain fabrics for men's and boys' work clothing. Does work clothing mean anything the manufacturer deems to be work clothing?

A. No. Work clothing is that kind of apparel which is generally recognized and accepted in the trade as work clothing. The rating to be used properly must be used for the special purpose of manufacturing work clothing, and the manufacturer of work clothing must conform with L-181.

10. Q. Are the descriptions of the fabrics listed in Column II, Group 1, of Preference Rating Schedule AA-4 intended to include fabrics which are made wholly of combed or carded yarns or of combinations of both, such as twills or poplins?

A. Yes.

11. Q. When should the notations specified in paragraph (d) of M-317 be used and when should the notations specified in paragraph (b) of Order M-323 be used?

A. If the rating is received by virtue of a Preference Rating Schedule of Order M-317, or by a War Production Board form for a cotton textile as defined in M-317, the certification provided for in Priorities Regulation 3 or the standard certification of Priorities Regulation 7 must be used and, in addition, one of the appropriate notations referred to in paragraph (d) (1) or (d) (2) of M-317 must be used. This will satisfy all certification and notation requirements of M-323.

If the rating is for a product not within the definition of "Cotton textiles" in M-317, then the provisions of paragraph (b) of M-323 must be followed.

It should be noted that the Preference Rating Schedules of M-317 do not assign any rating for export. The answer to Question 16 explains how ratings for export orders are given.

Note: See paragraph (d) of M-317 as amended February 21, 1944.

12. Q. What ratings are given for diapers?

A. An AA-4 Preference Rating is given to converters and manufacturers to obtain cloth to be made into diaper cloth or diapers. An AA-5 Preference Rating is given to a hospital for the purchase of diapers.

The effect is that in purchasing diapers, a hospital uses an AA-5 preference rating which

may be given to a manufacturer or to a jobber who in turn will pass it on to a manufacturer. This rating of AA-5 does not assist the manufacturer because he already has an AA-4 rating to obtain the fabric with which to make the diapers. It does, however, serve the purpose of giving priorities assistance to hospitals over other types of users.

13. Q. If a manufacturer of work gloves should receive an order from the Navy with an AA-2X rating, may he extend the AA-2X rating to buy mitten flannel or must he use the AA-4 rating given for Group 2 of the AA-4 preference rating schedule?

A. Since he is purchasing that textile for incorporation into a product to be delivered to the Navy, he may use the AA-2X rating and is not required to use the AA-4 rating.

14. Q. The order in subparagraph (a) (2) refers to the United States. Does that mean only the 48 states?

A. For the purposes of this order, United States means not only the 48 states but all the territories and possessions of the United States.

15. Q. Is a Canadian bag manufacturer given a preference rating by any Preference Rating Schedule?

A. No. In the AA-2X preference rating schedule, Group 1, a processor is given that rating for bagging fabrics to make bags. Only a domestic manufacturer is meant. The definition of "processor" relates only to a person engaged in the United States in the business of manufacturing.

16. Q. From where do ratings for export orders come?

A. A rating is given in connection with the granting of export licenses by the Foreign Economic Administration (Office of Economic Warfare). A rating is also given in connection with Treasury Department purchases for the Foreign Economic Administration (Lend-Lease and OFRRO). Canadian importers are being granted ratings by the Canadian Division of the War Production Board in Montreal, Canada, operating in conjunction with the Canadian Wartime Prices and Trade Board. All the ratings are AA-5.

17. Q. Can a domestic exporter or a Canadian importer use the ratings of the Preference Rating Schedules?

A. No.

18. Q. Does the order prohibit shipment without a rating to a Canadian purchaser who made a contract prior to December 24, 1943?

A. Yes it does. However, the Canadian purchaser may apply to the Cotton Administrator, Wartime Prices and Trade Board, Aldred Building, Montreal, for a preference rating.

19. Q. Must the purchaser for export show on his order any export license or serial number or any WPB serial number?

A. No export license or export serial number need be stated on his order. However, if a rating is assigned by Form WPB 2842, the serial number of that form must be inserted in the notation required by paragraph (d) of M-317.

[This interpretation is superseded by paragraph (d) of M-317 as amended Feb. 21, 1944]

20. Q. Do the restrictions of Column VI of the distribution schedules apply even to goods produced or ordered before December 24, 1943, the date of amendment?

A. Yes. The Column VI restrictions apply no matter when the goods were produced.

converted or ordered, and they apply to the producer, intermediate processor, processor, merchant and user. However, the Columns III, IV and V provisions cover only the producer (mill), and relate only to goods produced on and after January 1, 1944, regardless of the date they were ordered.

21. Q. Do the percentages in the distribution schedules apply separately to each construction?

A. No. They apply by groups to all the constructions covered by the respective Column I item numbers. For example, Items 76 thru 81, and 83 in Column I of the Carded Gray Goods Distribution Schedule refer to "other plain print cloths, except bandage cloths" and it is required that 40% be delivered against rated orders. This does not mean 40% of each and every fabric produced by the mill, but 40% of the aggregate yardage of the constructions fitting into those categories.

22. Q. In the Carded Gray Goods Distribution Schedule (Items 46, 47 and 48, 49) referring to bed sheetings 42" and wider (including made up sheets and pillow cases), the requirement is that at least 10% be delivered against rated export orders. May this obligation be satisfied by delivery, in whole or in part, of yard goods (gray or bleached) as well as sheets and pillow-cases?

A. Yes. The total yardages are interchangeable. Paragraph (a) (1) (i) defines cotton textiles to include gray or finished fabrics as well as bed sheets and pillow cases.

23. Q. Is a mill which produces soft-filled sheeting and converts it into suede subject to the minimum rated percentages under soft-filled sheetings (Items 12 and 13, Carded Gray Goods Distribution Schedule) as well as the percentages for moleskins and suedes (Item 135)?

A. Yes. Inasmuch as the mill produces both soft-filled sheetings and suedes it must comply with the minimum percentage requirements as to both. However, the suede which is sold on rated export and other rated orders can be credited against the minimum requirements for the delivery of soft-filled sheeting.

24. Q. Are remnants to be excluded from the total of a mill's production for the purposes of the percentages in Columns III, IV and V of the distribution schedules?

A. No. They are to be treated the same as seconds and shorts for the purpose of the distribution schedules.

25. Q. Are seconds and shorts to be considered as part of the mill's total production for the purposes of Columns III, IV and V?

A. Yes. In making calculations a mill's entire production must be considered, including seconds, shorts and remnants. When the Column IV percentage is 100, the privilege is given to the mill to dispose of seconds, shorts or remnants without ratings if no rated orders are available. But if rated orders are presented for seconds, shorts or remnants, those orders must be accepted.

26. Q. Is the mill bound by the provisions in Columns III and IV of the Distribution Schedules even if the rated business is not offered to it?

A. Yes. This does not mean, however, that the War Production Board will grant ratings for uses of cotton textiles which have not heretofore been rated. The percentages in Columns III and IV have been set at levels to cover the quantities of rated business available for each group of fabrics. It, therefore, becomes necessary that each mill actually obtain the specified quotas of rated orders, although the result of this requirement will be that in certain instances mills will be unable to accept their accustomed amount of unrated business.

27. Q. In the heading of each distribution schedule there is a provision which

states that if receipt of an order which is rated higher than a previously accepted rated order would result in having more rated orders than the Column V percentage, then the lowest rated order shall be displaced and it may be filled only from that percentage applicable to a subsequent quarter. Does this mean that producers cannot sell their yardage against ratings in excess of the percentage specified in Column V?

A. If after the seller has received the specified quantity of rated orders, another order rated lower than or the same as any of those already accepted is offered to him he may refuse it or he may accept it. This is a case where he is allowed to exceed the Column V percentage with rated orders.

If the newly offered order is rated higher than those he has already accepted, he must accept it, and it must displace the lowest rated order. This is a case where he is not allowed to exceed the Column V percentage with rated orders.

28. Q. The distribution schedules differentiate "bandage cloths" from other types of print cloth. The Preference Rating Schedules do not refer to "bandage cloths". Are "bandage cloths" included in the preference rating schedules?

A. Yes. Print cloths include bandage cloths. They are sub-divided in the distribution schedules, but are not sub-divided in the preference rating schedules.

29. Q. Where Column VI in the Carded Gray Goods Distribution Schedule provides that plain print cloths, 80 sley and higher, "may not be used for export", does that mean that a garment made of such goods may not be exported?

A. Yes. The restriction applies not only to the export of the fabric named in Column II but also to the use of the fabric in any product being produced for export. Furthermore, that restriction controls not only the mill, but also the converter, jobber and cutter.

[This interpretation is superseded by amendment to M-317 issued February 21, 1944, which substituted "These cotton textiles, as piece goods may not be exported" for "May not be used for export," in Column VI.]

30. Q. Suppose rated export orders, exceeding the percentage specified in Column III, are presented. Must the mill accept them?

A. Yes. Those rated orders must be accepted to the extent of the Column V percentage.

31. Q. If a mill is making only one construction of "other plain print cloths, except bandage cloths" (Carded Gray Goods Schedule, Items 76 thru 81, 83) namely 38½" 64 x 60 5.35 yard to meet special quality standards, for which he receives an AA-2 preference rating from an insulating tape manufacturer, is he obliged to deliver 10% for export?

A. Yes. Since Column III specifies 10% as the portion of his production which must be delivered against rated export orders, the mill is obliged to comply unless relieved upon appeal.

32. Q. Does a mill, which is required to deliver a minimum of 10% of its production of Class B sheetings against rated export orders satisfy the requirement by shipments on ratings to a domestic bag manufacturer who will manufacture those goods into bags which will be exported?

A. No. The requirement is that the specified minimum percentage must be delivered against rated orders in the form of a cotton textile. In the case given, the bag manufacturer's order to the mill is not an export, but a domestic order. Only the bags are covered by an export order.

33. Q. Does delivery of cotton textile to a garment manufacturer who could certify

that the garment to be made therefrom is to be exported fulfill the export requirement?

A. No. The provision of Column III of the distribution schedules showing the minimum percentage which must be delivered against rated export orders means rated export orders for a cotton textile and not for a finished product which is not a cotton textile, such as the garment. It is to be noted that when the cotton textile is to be exported, paragraph (d) requires a notation to that effect to be placed by the purchaser on the purchase order.

34. Q. Where a percentage is not specified in Column III of distribution schedules, is the processor relieved of any obligation to accept rated export orders?

A. No. Unless there is a prohibition against export in Column VI, rated orders, export or otherwise, must be accepted up to the Column V percentage. The omission of a percentage in Column III merely indicates that the processor is not required to deliver a minimum percentage against rated export orders.

35. Q. Suppose, before December 24, 1943, when the Distribution Schedules were first adopted, a spinner had received rated contracts for 100 per cent of his first quarter of 1944 production of single machine knitted carded cotton sale yarn (Items 16 through 18), does M-317 permit him to cancel those contracts to the extent of 30 per cent of that production, since Column V provides that he is not obliged to accept rated orders for more than 70 per cent?

A. No. The order does not excuse him from performing his existing rated contracts. In his case, only after his existing contracts have been performed will he have the benefit of the provision that "Column V shows the percentage beyond which rated orders need not be accepted by the producer."

Issued this 21st day of February 1944.

Recording Secretary.

SEC. 5. *Maximum prices for sales at retail of rubber footwear—*(a) *Method of determining the maximum price for each type and brand of rubber footwear.* The seller's maximum price for sales of each type and brand of rubber footwear, shall be the maximum price set forth in Appendix A or Appendix B for that type of rubber footwear for the appropriate price class determined under paragraph (b).

(b) *How the seller determines the appropriate price class.* The seller shall determine the appropriate price class for each type and brand of rubber footwear he sells, as follows:

(1) If the seller sold the type and brand of rubber footwear being priced between September 29, 1942, and February 24, 1944, that type and brand of rubber footwear shall be placed in the same price class as it was under § 1315.1703 of Maximum Price Regulation 229⁴ during that period.

(2) If the seller did not sell the type and brand of rubber footwear being priced between September 29, 1942, and February 24, 1944, the appropriate price class shall be determined by reference to the tables set forth in Appendix A for waterproof rubber footwear, and Appendix B for canvas rubber footwear. The seller shall compare the net price

at which he purchased the rubber footwear he is pricing after February 23, 1944, with the range of net prices set forth in those tables for that type of footwear. The range of net prices into which the net price he paid falls, shall determine the appropriate price class.

(3) If, at any time subsequent to February 23, 1944, a seller buys a type and brand of rubber footwear in sufficiently larger quantities so that the net price he pays is lower than the net price which he used in determining the appropriate price class for that type and brand of rubber footwear, he must re-determine the appropriate price class by reference to the tables set forth in Appendix A or Appendix B.

(c) *Meaning of the "net price" at which the seller purchased the rubber footwear he is pricing.* The "net price" at which the seller purchased the type and brand of rubber footwear he is pricing, means the lowest price, without cash discount, at which he purchased that type and brand after February 23, 1944, (or the list price, less all discounts except cash discount). Manufacturers' "seconds", clearly marked as such, shall not be considered as establishing the net price for a type and brand of rubber footwear.

(d) *Discounts.* The seller shall deduct from his maximum price, as found in Appendix A or Appendix B, all discounts, allowances, and any other deductions that he had in effect to different classes of purchasers during the period July 1 to October 25, 1941.

SEC. 6. *Maximum prices for sales at wholesale of rubber footwear.* The maximum price for sales at wholesale of rubber footwear is the price stated in Appendix A or Appendix B for sales at wholesale, less all discounts, allowances, and any other deductions that the wholesaler had in effect to different classes of purchasers during the period April 1 to October 25, 1941.

SEC. 7. *Federal and state taxes.* Any tax upon or incident to the sale, delivery, or processing of rubber footwear imposed by any statute of the United States, or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price: If the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased. The tax on the transportation of all property imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any rubber footwear, be treated as though it were an increase of 3 percent in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the maximum price.

SEC. 8. Terms and conditions of sale—

(a) *Credit charges.* Charges for the extension of credit may be added to the maximum prices established by this regulation only if: (1) The seller during the period February 11 to September 29, 1942, required payment of a separately stated additional charge for the extension of credit by purchasers of the same class on sales of the same or similar types of commodities; (2) the amount charged for the extension of credit is not in excess of the charge in effect during the period February 11 to September 29, 1942, for the extension of credit involving the same amount and term; and (3) such charges are quoted and billed separately. No seller may require as a condition of sale that the purchaser must buy on credit.

(b) *Service charges.* In the case of sales at wholesale a service charge of 5 cents a pair may be added to the maximum price on all orders of six pairs or less. Additional charges for services rendered the purchaser by the seller may be charged only if: (1) the seller during the period February 11 to September 29, 1942, required the payment of a separately stated additional charge for such services to purchasers of the same class, and (2) the amount charged for the services is not in excess of the charge in effect during the period February 11 to September 29, 1942, to purchasers of the same class for the same or similar services.

(c) *Transportation charges.* No seller shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery of any rubber footwear than the seller required purchasers of the same class to pay on deliveries of the same or similar types of rubber footwear during April 1 to October 25, 1941, for sales at wholesale, and July 1 to October 25, 1941, for sales at retail.

SEC. 9. Transfers of stock or business in trade. If the business, assets or stock in trade are sold, or otherwise transferred after February 1944, and the transferee carries on the business, or continues to deal in the same type of commodities, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

ARTICLE III—MISCELLANEOUS

SEC. 10. Petitions for amendment. Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.⁷

SEC. 11. Adjustable pricing. Any person may agree to sell at a price which can

be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

SEC. 12. Records. To aid in the enforcement of this regulation every seller is required to keep and preserve the following records for inspection by the Office of Price Administration:

(a) All existing records showing his purchases of each type and brand of rubber footwear.

(b) Records showing the basis on which the seller sets each maximum price, in a form which will permit filing on demand with the Office of Price Administration.

(c) Records of the same kind as he has customarily kept showing the prices actually charged by him for rubber footwear which he sells after the effective date of this regulation.

SEC. 13. Posting and filing of maximum prices for sales of rubber footwear at retail. (a) On and after February 24, 1944, every person offering to sell rubber footwear at retail shall mark the maximum price of such commodity in a manner plainly visible to, and understandable by, the purchasing public, in the business establishment where rubber footwear is offered for sale. The maximum price shall be stated as follows: "Ceiling price \$---"; or "Our ceiling \$---".

(1) Every seller making retail sales on the basis of orders received by mail shall post or mark his maximum price in all catalogs, flyers, leaflets, circulars, booklets, lists or other printed or similar matter issued and distributed by him after the effective date of this regulation for the purpose of obtaining mail orders. One of the following methods of posting or marking shall be used:

(i) State the maximum price for each rubber footwear commodity listed in each of the publications described above at the place in the publication where such commodity is listed. The maximum price shall be stated substantially as follows: "Ceiling price \$---"; or "Our ceiling price \$---"; or,

(ii) Print on the front cover of all catalogs, flyers, leaflets, circulars or booklets, or the front page of all lists or publications not having a cover, at the time they are issued, substantially the following statement signed with the name of the seller:

NOTICE TO CUSTOMERS

No price for any article listed or described herein exceeds the ceiling price for that

article as determined under the applicable maximum price regulation issued by the Office of Price Administration. As required by that Office, we will, upon request, furnish you with a statement of our maximum prices on any of the commodities listed about which you inquire.

(Signed) _____

Any seller using this method, shall upon request, furnish a statement of the maximum prices for any commodities listed or described in the publication and about which the customer inquires.

(2) Any seller making retail sales by mail may apply to the Office of Price Administration for permission to deviate from the requirements in subparagraph (1). The application shall state why such requirements are inequitable or inappropriate as applied to the applicant's business, and shall show that the requested method of posting is substantially in line with the requirements of posting for mail order sellers set forth in subparagraph (i).

SEC. 14. Sales slips and receipts. Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each commodity or service sold, and the price received for it.

SEC. 15. Licensing. The provisions of Licensing Order No. 1,⁸ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 16. Evasion. The price limitations set forth in this regulation shall not be evaded by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of rubber footwear, alone or with any other commodity or by way of commission, service, transportation, or any other charge, discount, premium, or other privilege, or by tying-agreements or other trade understanding, or otherwise.

SEC. 17. Enforcement. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 18. Definitions. (a) When used in this regulation, the term: "Sale at retail" means a sale to an ultimate consumer. "Sale at wholesale" means a sale by a person who buys rubber footwear and resells it, without substantially changing its form, to any person other than the ultimate consumer.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used herein.

[RMFR 148, incl. Amdt. 15]

DRESSED HOGS AND WHOLESALE PORK CUTS

Sections 1364.22 (d) (2), (d) 3,
1364.29, 1364.32 (a) (7), (a) (9), 1364.32

(c), 1364.35, Schedules I, II, and III amended; § 1364.32 (a) (15) (v) added by Amendment 15, effective February 24, 1944; § 1364.22a revoked by Amendment 15, effective March 1, 1944; so that Revised Maximum Price Regulation 148 shall read as follows:

In the judgment of the Price Administrator, it is necessary and proper, in

order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended and Executive Order No. 9250 issued by the President on October 3, 1942, to maintain as the maximum prices for dressed hogs and wholesale pork cuts the prices prevailing with respect thereto during the period March 3, 1942 to March 7, 1942, inclusive. Prices determined as

provided in § 1364.22 reflect the prices prevailing during such period. The Price Administrator has ascertained and given due consideration to the prices of dressed hogs and wholesale pork cuts prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said act and Executive order. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.²

The maximum prices established herein are not below prices which will reflect to producers of the agricultural commodities from which dressed hogs and wholesale pork cuts are produced a price for their products equal to the highest of the prices required by the provisions of the Emergency Price Control Act of 1942, as amended, and by the Executive Order of October 3, 1942.

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

[Above sentence added by Supplementary Order No. 63, 8 F.R. 12553, effective 9-11-43]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and in accordance with Procedural Regulation No. 1,³ issued by the Office of Price Administration, Revised Maximum Price Regulation No. 148 is hereby issued.

1364.34 Effective date.

1364.35 Appendix A: Schedules I, II, III and IV.

AUTHORITY: §§ 1364.21 to 1364.35, inclusive, issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

§ 1364.21 *Prohibition against selling dressed hogs and wholesale pork cuts at prices above the maximum.* On and after November 2, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver dressed hogs or any wholesale pork cut, and no person in the course of trade or business shall buy or receive dressed hogs or any wholesale pork cut at a price higher than the maximum price permitted by § 1364.22; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That on and after June 14, 1943, a war procurement agency in addition to paying to the seller the maximum price for the commodity prescribed by the applicable provisions of this regulation, may pay to Defense Supplies Corporation an amount equivalent to the meat production payments made by Defense Supplies Corporation on account of the production of such meat.

[§ 1364.21 as amended by Am. 5, 8 F.R. 7871]

§ 1364.22 *Maximum prices for dressed hogs and wholesale pork cuts.* Maximum prices for dressed hogs and wholesale pork cuts shall be computed as provided in this section.

(a) *Base price.* The base price for each wholesale pork cut shall be the price specified in Schedule I of Appendix A (incorporated herein as § 1364.35), minus the required deductions, if any, specified in Schedule II of Appendix A (§ 1364.35), plus the permitted additions, if any, specified in Schedule III of Appendix A (§ 1364.35).

(b) *Maximum prices in central price zone.* Except as provided in paragraph (h) of this section, the maximum price for each wholesale pork cut delivered to the buyer within the Central Price Zone, or delivered outside the Central Price Zone by a local delivery beginning in the Central Price Zone, shall be the base price.

(c) *Maximum prices in Chicago price zone.* Except as provided in paragraphs (b) and (h) of this section, the maximum price for each wholesale pork cut delivered to the buyer in the Chicago Price Zone, or delivered to the buyer outside the Chicago Price Zone and the Central Price Zone by a local delivery beginning in the Chicago Price Zone, shall be the base price plus \$0.25 per cwt.

(d) *Maximum prices outside central price zone and Chicago price zone.* Except as provided in paragraphs (b), (c) and (h) of this section, the maximum price for each wholesale pork cut delivered to the buyer outside the Central Price Zone and the Chicago Price Zone shall be the base price plus a transportation differential determined as follows:

(1) The seller shall ascertain the point at which local delivery begins, if local delivery is made, or the point of delivery

if no local delivery is made. If no carload meat freight rates are established to such point, he shall ascertain the nearest point at which such freight rates are established.

(2) If the point ascertained under paragraph (d) (1) of this section is east of the Mississippi River, but is not in Minnesota, Wisconsin, or in that part of Michigan lying between Lake Superior and Lake Michigan or Lake Huron, the transportation differential for any fresh wholesale pork cut shall be 115 percent of the lowest fresh meat carload freight rate from Chicago, Illinois, to such point adjusted to the nearest \$0.25 per cwt. and plus \$0.25 per cwt., and the transportation differential for any cured or processed wholesale pork cut shall be 115 percent of the lowest packing house product carload freight rate (applicable to cooked, cured or preserved meats and sausage) from Chicago, Illinois, to such point, adjusted to the nearest \$0.25 per cwt. and plus \$0.25 per cwt. (Caution: This transportation differential is to be added to the base price, not to the maximum price in the Chicago Price Zone.)

(3) If the point ascertained under paragraph (d) (1) of this section is in Missouri, Arkansas, or in those portions of Louisiana west of the Mississippi River, or in those portions of Texas, Oklahoma or Kansas which lie east of the 99th meridian, the transportation differential for any fresh wholesale pork cut shall be 115 percent of the lowest fresh meat carload freight rate from Kansas City, Missouri, to such point, adjusted to the nearest \$0.25 per cwt., and the transportation differential for any cured or processed wholesale pork cut shall be 115 percent of the lowest packing house product carload freight rate (applicable to cooked, cured or preserved meats and sausage) from Kansas City, Missouri, to such point, adjusted to the nearest \$0.25 per cwt.

[Subparagraphs (2) and (3) as amended by Am. 15.]

(4) If the point ascertained under paragraph (d) (1) of this section lies in any other part of the United States than those areas referred to in paragraphs (d) (2) and (d) (3) of this section, the seller shall ascertain the lowest of the packing house product carload freight rates (applicable to cooked, cured or preserved meats and sausage) to such point from Kansas City, Missouri, and South St. Paul, Minnesota. The transportation differential for fresh, cured or processed wholesale pork cuts shall be 115 percent of such lowest rate, adjusted to the nearest \$0.25 per cwt.

(e) *When products are delivered to the buyer.* Dressed hogs and wholesale pork cuts shall be deemed to be delivered to the buyer at the point where physical possession is taken by the buyer or his

agent, or where the dressed hogs or wholesale pork cuts, consigned to the buyer,

(1) Are received by a common carrier or contract carrier, other than a railroad, and the charges of such carrier are paid directly to such carrier by the buyer;

(2) Are received by a railroad, for shipment at the railroad carload rate or for shipment to an agency of the United States government and the charges of such railroad are paid directly to such railroad by the buyer.

[Paragraph (e) as amended by Am. 1, 8 F.R. 544]

(f) *Maximum prices of wholesale pork cuts listed in Appendix A.* (1) Except as provided in paragraph (h) of this section, if the maximum price for any wholesale pork cut delivered to the buyer cannot be determined under the provisions of the foregoing paragraphs of this section, such maximum price shall be that of the nearest similar wholesale pork cut derived from the same primal cut or combination of primal cuts, making adjustment for the differences in the costs of producing such cuts. Each seller shall file with the Office of Price Administration at Washington, D. C., within 10 days of computation, each maximum price computed under the provisions of this paragraph (f) together with a sworn statement of the method of such computation and the comparative costs included therein, including costs of labor, materials, and overhead, and shrinkage or gain in weight. Any maximum price so computed shall be subject to revision by the Price Administrator. No person shall sell any wholesale pork cut not listed in Schedule I of Appendix A (§ 1364.35), except canned meats subject to the provisions of paragraph (h) of this section, without first filing with the Office of Price Administration at Washington, D. C., a maximum price for such cut as required by the provisions of this paragraph (f).

(2) The last date for computing and filing maximum prices under this paragraph (f) for all wholesale pork cuts, other than those sold exclusively to war procurement agencies, shall be May 31, 1943. On or before June 30, 1943, the Office of Price Administration shall review all maximum prices filed on or before May 31, 1943, and the Price Administrator shall in writing confirm or modify the maximum prices filed by such seller under this paragraph (f). On and after June 1, 1943, no person shall sell in civilian trade any wholesale pork cut not listed in § 1364.35, other than a cut for which such person has, prior to that date, duly filed a maximum price as required by this paragraph (f); nor shall any person who has so filed a maximum price for any wholesale pork cut sell such cut at a price higher than the price authorized by the written confirmation or modification of the Price Administrator.

[Paragraph (f) amended by Am. 1, 8 F.R. 544, and Am. 4, 8 F.R. 7322]

(g) *Maximum prices for dressed hogs, invoices, maximum prices for slaughtering services.* (1) The maximum price

for each dressed hog, dressed packer style or shipper style, sold to a certified dressed hog processor and delivered to the buyer, shall be that ascertained in accordance with the pricing instructions contained in Schedule IV of Appendix A (§ 1364.35).

(2) Every person who sells dressed hogs to a certified dressed hog processor shall invoice such dressed hogs to the buyer by weight ranges set forth in the table in Schedule IV (a) of Appendix A (§ 1364.35). Every person who sells dressed hogs to others than certified dressed hog processors shall invoice such dressed hogs to the buyer by weight ranges set forth in the table in paragraph (g) (3) of this section. Dressed hogs falling in each such weight range shall be invoiced separately. No person shall sell hogs dressed otherwise than packer style or shipper style.

[Subparagraphs (1) and (2) amended by Am. 1, 8 F.R. 544, and Am. 2, 8 F.R. 2922]

To enable the slaughterer to determine the amount to be remitted to the purchaser, it shall be the duty of such purchaser to advise the slaughterer of the amount paid for the hogs slaughtered.

§ 1364.23 *Adjustable pricing and transportation adjustments*—(a) *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

(b) *Adjustment for transportation to critical areas.* Upon a finding that a critical shortage of meat has occurred in a specific area because of the unavailability of customary sources of supply and because the established maximum prices do not contain a sufficient allowance to cover the cost of transporting meat to that area from other sources of supply, the Administrator may by order designate such area as a critical area for such period as he may prescribe. Subject to such conditions as may be prescribed in the order of the Administrator, the Regional Administrator for the area or any District Manager designated by him, may in writing authorize named sellers to charge and receive, for dressed hogs and wholesale pork cuts sold to buyers in that area, the added cost of transportation in addition to the applicable maximum price.

(g) For breaking a box or barrel of whole sale pork cuts and delivering less than 30 lbs. of the kind of cuts contained in such box, loose, to a single buyer, an independent wholesaler or packer's branch house may add to the Schedule I price of the cuts so delivered, in lieu of the shipping containers addition permitted by paragraph (c) (1) of this schedule, an amount equal to such permitted shipping container addition. This provision does not apply to sales from branch houses located at or near the seller's packing plant.

York City and shipped on November 24, 1942, the appropriate seasonal denominator would be 1.315, and the current Chicago live hog price would be that reported for Thursday, November 19, 1942, three market days prior to Tuesday, November 24, 1942, (\$14.00 per cwt.), minus an assumed current live hog subsidy at that time of \$1.30 per cwt., equaling \$12.70 per cwt. \$12.70 multiplied by 1.315 equals \$16.70.

(2) To the price determined under paragraph (c) (1) of this Schedule, add 25¢ per cwt. if the seller delivers such dressed hog by a local delivery to a point more than 50 miles away from the shipping point.

Example: If in the example stated in paragraph (c) (1), such local delivery were made, 25 cents would be added to \$16.79 giving a price of \$16.95 per cwt.

(3) To the price determined under paragraph (c) (2), add the following permitted fresh kill addition, if the dressed hog is derived from a hog killed in the region where the addition is applicable and delivered by local delivery within such region on the same day as or on the day after killing or sold to the Federal Surplus Commodities Corporation:

Region	Permitted addition per cwt.
(i) New England, New Jersey, Delaware, Maryland, District of Columbia and those portions of New York and Pennsylvania lying east of the 77th meridian.....	50¢
(ii) Those portions of Pennsylvania and New York lying west of the 77th meridian.....	35¢
(iii) Virginia; West Virginia; Kentucky; Ohio; Indiana; Chicago, Illinois; and the local peninsula of Michigan (that part of Michigan lying between Lake Michigan and Lake Huron).....	15¢

Example: In the example stated in paragraph (c) (2), if the dressed hog is sold to the Federal Surplus Commodities Corporation, or if local delivery is made to a buyer within the region described in subparagraph (3) (i), 50 cents would be added to \$16.95 giving a price of \$17.45 per cwt.

(4) The maximum price for each dressed hog delivered to the buyer within the Central Price Zone, or delivered outside the Central Price Zone by a local delivery beginning in the Central Price Zone, shall be the applicable price determined under paragraph (c) (1) or (c) (2) of this Schedule.

(5) Except as provided in paragraph (c) (4) of this Schedule, the maximum price for each dressed hog delivered to the buyer in the Chicago Price Zone, or delivered to the buyer outside the Chicago Price Zone and the Central Price Zone by a local delivery beginning in the Chicago Price Zone, shall be the applicable price determined under paragraph (c) (1), (c) (2) or (c) (3) of this Schedule, plus 25¢ per cwt.

(6) Except as provided in paragraphs (c) (4) and (c) (5) of this Schedule, the maximum price for each dressed hog delivered to the buyer outside the Central Price Zone and the Chicago Price Zone shall be the applicable price determined under paragraph (c) (1) (c) (2) or (c) (3) of this Schedule, plus the designated transportation differential.

(d) *Brokers' fees.* The maximum prices fixed pursuant to paragraph (c) of this Schedule IV shall include all charges for brokerage and no addition to such prices may be made for brokers' fees. If the seller pays no brokerage fees on shipments of carload lots, the maximum price shall be reduced by \$0.125 per cwt. If the seller pays brokerage on such shipments in an amount less than \$0.125 per cwt., the maximum price shall be reduced by the difference between the amount of brokerage actually paid by the seller and \$0.125 per cwt.

PART 1439—UNPROCESSED AGRICULTURAL

[MPR 426,¹ Amdt. 19]

USE, SALES EXCEPT AT RETAIL

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

1. A new paragraph (e) (8) is added to Appendix H, of Article III, section 15 to read as follows:

(8) All weighing and packing by growers and country shippers of the listed commodities shall be done in accordance with customary weighing and packing practices and the requirements of the applicable State Agricultural Code. The provisions of section 1 (f) (5) apply only to those containers of the listed commodities whose maximum prices are named in the applicable table in paragraph (b) hereof, on a per pound basis.

2. Appendix I is added to section 15, Article III, to read as follows:

APPENDIX I—MAXIMUM PRICES FOR CITRUS
FRUITS

(a) *Explanation.* This appendix establishes maximum prices for certain sales of oranges, grapefruit, lemons, and tangerines. It supersedes the provisions of Maximum Price Regulation No. 292,² and applies to every seller of citrus fruits including growers, country shippers, carlot distributors, terminal brokers, carlot receivers, secondary jobbers, commission merchants and all other sellers except retailers.

Specifically, this appendix:

(1) Establishes designated basing points, maximum prices f. o. b. shipping point, for sales f. o. b. point of shipment,

(2) Establishes maximum prices at the wholesale receiving point for sales through certain named agents and for such sales by all sellers other than retailers,

(3) Establishes maximum prices for all sales of citrus fruits to retail stores, government procurement agencies and institutional buyers.

Each of the citrus fruits is covered by a separate table. Provisions which apply specially to any one kind of citrus fruit are to be found in footnotes to the applicable table. Provisions applicable to all the citrus fruits are to be found in the paragraphs following the tables. The maximum mark-

² 8 F.R. 135, 543, 2869, 3367, 6134.

ups which may be added to the f. o. b. or delivered maximum prices, as the case may be, for certain types of sales common to all the citrus fruits, are set forth in a separate table.

Sales by growers of country shippers of five containers (not larger than a "standard" box) or less of citrus fruits in any one lot by mail or express to any one ultimate consumer shall be exempt from the provisions of this regulation, but such sales shall be subject to the provisions of this regulation when made by sellers other than growers or country shippers.

The Office of Price Administration reserves the right to change any basing point named in this Appendix at any time, or to establish new or additional basing points, without changing the maximum prices f. o. b. country shipping point.

(d) Table of maximum markups applicable to all citrus fruits. The following table states the maximum markups which may be added for certain distributive services. In each case, the maximum price shall be figured by adding the appropriate markup to the named f. o. b. or delivered maximum price (see Column 6 of the applicable table in paragraph (c)), as the case may be. In figuring maximum prices, markups may not be taken cumulatively.

For example: If a carlot receiver buys a carlot of oranges delivered at the wholesale receiving point from a grower selling through a broker, the grower's ceiling price is the maximum delivered price (see Column 6 of

the applicable table in paragraph (c)), plus the broker's fee (not to exceed 7¢ per box) and the carlot receiver's ceiling price on the resale (ex store) is the maximum carlot delivered price plus 45¢ per standard box. In other words, the broker's fee comes out of the 45¢ and is not added to it.

¹ Charges determined under MPR 165 shall be used instead of those listed in this table if such charges are lower than the mark-ups shown.

² Column 12 does not apply to sales made in bulk. Bulk sales of any quantity shall be priced under column 11.

(e) Provisions applicable to growers and country shippers—(1) Prohibition against certain payments. No grower or country shipper shall receive, and no person shall pay to any grower or country shipper, an amount in excess of the maximum price f. o. b. country shipping point (if sold f. o. b.) or the maximum price for delivered sales (if sold delivered) (see Column 6 of the applicable table in paragraph (c)), regardless of the type of sale or the type of purchaser, and regardless of any existing or future commitment between buyer and seller, except for allowances made to growers and country shippers for sales through agents, and except as provided for sales by growers and country shippers delivered to premises of retail stores, government procurement agencies, institutional buyers and ultimate consumers. No person who does not pack and ship the citrus fruit being priced and who does not regularly operate a packing and shipping plant for that commodity, shall purchase citrus fruits in bulk (but not washed, graded and stamped) or "on the tree" at a price higher than the maximum price for the applicable purchase and sale named in the applicable table in paragraph (c).

For example: Suppose a grower of Florida "Indian River" oranges receives an offer from an eastern jobber to "split the wholesale markup" on a delivered sale to the buyer's place of business. It is illegal for the grower to accept any amount of money in excess of the maximum price, f. o. b. country shipping

point, plus freight from the applicable basing point and the allowance for protective services listed in the table in paragraph (c) for Florida "Indian River" oranges. The grower may enter into a "joint account" with an eastern buyer, but after the sale the gross return to the grower must not exceed the applicable maximum price, f. o. b. country shipping point plus freight from the basing point and the named protective service allowance.

"Country shipper" means any person, including a grower, grower's cooperative, or packer, who grades, sizes, and packs, or otherwise prepares the kind of citrus fruit being priced for shipment and who sells the commodity from a farm, orchard, grove or other country shipping point. A person who has the citrus fruit packed or prepared for him for sale shall be deemed to be a "country shipper", and the country shipping point shall be deemed to be the place where the particular citrus fruit has been prepared for shipment.

"Ultimate consumer" means a person who buys the kind of citrus fruit being priced for direct consumption. However, as used in this Appendix, the term does not include a commercial, industrial, institutional user or government procurement agency.

(2) Sales by country shippers or growers through brokers, shippers' sales agents, commission merchants or terminal auctions. (i) For sales of citrus fruits by growers or country shippers in carlots or trucklots

through a broker, shipper's sales agent or commission merchant, or in less-than-carlots or less-than-trucklots through a broker or shipper's sales agent, the maximum price in each case is the maximum price, f. o. b. country shipping point, or the maximum delivered price (see Column 6 of the applicable table in paragraph (c)), as the case may be, for the kind of citrus fruit being priced, as named in the applicable table in paragraph (c), plus the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which such selling agent may charge under Maximum Price Regulation No. 165³) or the markup shown in Column 4 of the table in paragraph (d), whichever is lower.

"Broker" or "shipper's sales agent" means a person other than a commission merchant or a salaried representative of a grower or country shipper who, for a commission or fee, sells the kind of citrus fruit being priced on behalf of his principal, without packing any part of the particular citrus fruits sold.

"Commission merchant" means a seller's agent who receives the kind of citrus fruit being priced and who, for a commission or fee, sells it in any quantity in a terminal market or other wholesale receiving point, and who, in the case of less-than-carlot and less-than-trucklot sales, performs the wholesale functions of unloading the fruit from the car or truck in which it is received.

³ 8 F.R. 14990.

"Commission" or "fee" means the charge made by an agent for services performed in connection with the sale of citrus fruits. No amount which the agent pays over to his principal shall be considered part of his fee or commission.

(ii) For sales by growers or country shippers through a commission merchant in less-than-carlots or less-than-trucklots, the maximum price in each case is the maximum delivered price for the kind of citrus fruit being priced, as named in Column 6 of the applicable table in paragraph (c), plus the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which such selling agent may charge under Maximum Price Regulation No. 165) or the applicable markup (for ex car or ex store sales, as the case may be, named in Columns 6 and 7 of the table in paragraph (d)), whichever is lower. (For deliveries made in conveyances owned by the seller, see paragraph (iv), below.)

For example: Assume that the maximum price for a carlot of oranges in standard boxes delivered in a particular market is \$4.50 per box. Assume the commission merchant is selling ex store, and that his actual fee (and his maximum fee under MPR 165) is 7% of the selling price, or 34¢ per box. The maximum markup for sales by commission merchants (ex store) in Column 7 of the table in paragraph (d) is 45¢ per box. The maximum price for sales through the commission merchant is therefore \$4.50 plus 34¢, or \$4.84 per box.

(iii) The maximum price in each case for sales by growers or country shippers through a terminal auction is the maximum delivered price named in Column 6 of the applicable table in paragraph (c), plus (1) the respective actual commissions or fees charged for the particular sale (not to exceed the maximum allowable commission or fee which the agent of the auction seller and which the auction company may charge under Maximum Price Regulation No. 165) or the markup named in Column 5 of the table in paragraph (d), whichever is lower, plus (2) any actual unloading charges in the terminal market.

"Terminal auction" means a place where, on the basis of competitive bidding open to any person who has established credit with the auction company or pays cash, the citrus fruit being priced is sold in less-than-carlots or less-than-trucklots, by persons operating through a licensed sales organization, known as an "auction company", for whose services a fee is charged.

(iv) For sales by growers or country shippers delivered from the country shipping point in conveyances owned by the seller to government procurement agencies, to institutional buyers or to retail stores where resale is made to ultimate consumers, the maximum price, in each case, is the price for the kind of citrus fruit being priced, as named in Column 7 of the applicable table in paragraph (c). (For deliveries made in conveyances not owned by the seller, see paragraphs (i), (ii) and (iii) above.) For sales by growers or country shippers to ultimate consumers, the maximum price is the price for the kind of citrus fruit being priced, as named in Column 7 of the applicable table in paragraph (c) multiplied by 1.33.

(f) Maximum prices for sales by persons other than growers or country shippers. (1) If any person other than a grower or country shipper purchases and resells in unbroken carlots or unbroken trucklots, the maximum price in each case is the maximum price f. o. b. country shipping point, or the maximum delivered price named in Column 6 of the applicable table in paragraph (c), plus the markup named in Column 8 of the table in paragraph (d).

(2) Sales by carlot or trucklot receivers in less-than-carlots or less-than-trucklots. (i) For sales ex car, ex truck, ex dock, or ex terminal sales platform, at a terminal market or any wholesale receiving point the maximum price shall be the maximum delivered price (see Column 6 of the applicable table in paragraph (c)) plus the markup named in Column 9 of the table in paragraph (d) for such sales.

(ii) If a carlot or trucklot receiver breaks a car or truck, unloads into a store or warehouse owned or leased in whole or part by him, and makes sales ex store or ex warehouse, the maximum price in these sales shall be the maximum delivered price (see Column 6 of the applicable table in paragraph (c)) plus the markup named in Column 10 of the table in paragraph (d) for ex store or ex warehouse sales. This price does not include delivery charges. If the carlot or trucklot receiver makes delivery, he may also add the amount which the appropriate regional or district office determines to be applicable to deliveries in these cases (see paragraph (g)).

(iii) If a carlot or trucklot receiver makes a delivered sale to the premises of a purchaser, within the free delivery zone, without first unloading into a store or warehouse owned or leased by him, the maximum price shall be the maximum price for ex car, ex truck, ex dock, or ex terminal sales platform sales plus the amount which the appropriate regional or district office determines to be applicable to such sales (see paragraph (g)).

(3) Sales through terminal auctions. (i) The maximum price in each case for sales by persons other than growers and country shippers through a terminal auction is the maximum delivered price, as named in Column 6 of the applicable table in paragraph (c), plus the markup named in Column 9 of the table in paragraph (d). All charges incurred in the making of the sale are included in the named markup, and shall not be added to it.

(ii) "Carlot receiver" or "trucklot receiver" means a person who for his own account and profit buys the citrus fruit being priced in unbroken carlots or unbroken trucklots for resale, in less-than-carlots or less-than-trucklots, to persons other than ultimate consumers. For sales of citrus fruits in unbroken carlots or unbroken trucklots, the seller shall not be considered a carlot or trucklot receiver.

(4) Sales by secondary jobbers. (i) The maximum price in each case for sales by secondary jobbers on a delivered basis is the maximum delivered price named in Column 6 of the applicable table in paragraph (c) plus the markup named in Column 11 of the table in paragraph (d). "Delivered" means delivered to the buyer's premises within the free delivery zone and, in the case of retailers, delivered to the retail store.

(ii) The maximum price in each case for sales by secondary jobbers not on a delivered basis is the maximum price for sales on a delivered basis less five cents per container for containers under 50 pounds (gross weight) and ten cents per container for containers 50 pounds or more (gross weight), except as these amounts may be changed by the appropriate regional or district office (see paragraph (g)).

(iii) "Secondary jobber" means a person other than a retailer who for his own account and profit purchases the kind of citrus fruit being priced in less-than-carlots or less-than-trucklots and resells it in any quantities.

(5) Sales by service wholesalers. (i) The maximum price in each case for sales by service wholesalers on a delivered basis is the maximum delivered price named in Column 6 of the applicable table in paragraph (c) plus the markup named in Column 12 of the

table in paragraph (d). "Delivered" means delivered to the buyer's premises within the free delivery zone and, in the case of retailers, delivered to the retail store.

(ii) A service wholesaler, when selling the kind of citrus fruit being priced on a delivered basis in quantities of one-half container or less, may add to the maximum delivered price for that kind of citrus fruit, as named in the applicable table in paragraph (c), the markup named in Column 13 of the table in paragraph (d), but only if he has first offered to sell to the buyer on a full-container basis. This paragraph applies only where the seller breaks the original container received by him and sells a quantity not in excess of half of the quantity in that container. The paragraph does not apply to sales of "half box bags", "half strap boxes", or other fractional units of a standard or legal container, received by the seller and sold unbroken in the form in which it was received.

(iii) The maximum price in each case for sales by service wholesalers not on a delivered basis is the maximum price for sales on a delivered basis less five cents per container for containers under 50 pounds (gross weight) and ten cents per container for containers 50 pounds or more (gross weight), except as these amounts may be changed by the appropriate regional or district office (see paragraph (g)).

(iv) "Service wholesaler" means a person, who maintains a store or warehouse at which the kind of citrus fruit being priced is stored or warehoused, who receives the commodity at the premises of his store or warehouse, who maintains at such store or warehouse facilities for cold storage, sorting, repacking, and other handling of the fruit, who employs salesmen to call on the trade in the city or country points which he services, and who sells to retail stores, government procurement agencies or institutional buyers.

(v) The maximum price for sales by secondary jobbers or service wholesalers delivered to the premises of any purchaser located outside of the free delivery zone is the maximum delivered price named in Column 6 of the applicable table in paragraph (c) plus the markup named in Column 11 of the table in paragraph (d), plus the cost of transportation, beyond the free delivery zone, figured at the lowest common or contract carrier rate for available transportation, from the seller's place of business to the premises of the purchaser. The amount added for transportation shall not exceed 25 cents per cwt. for the first 25 miles beyond the free delivery zone and five cents per cwt. for each successive 25 miles, and the total amount may not exceed 50 cents per cwt., except as these amounts may be changed by the appropriate regional or district office (see paragraph (g)).

(g) Adjustments by regional and district offices. The authority delegated by sections 2 (a) and 2 (b) of this regulation to the regional and district offices does not apply to citrus fruits. For citrus fruits, the regional offices of the Office of Price Administration, and such district offices as they in turn may authorize, are authorized:

(1) To determine the limits of the free delivery zone at any wholesale receiving point located within its jurisdiction and to adjust upwards or downwards the allowances for sales by secondary jobbers and service wholesalers on a non-delivered basis and to adjust upwards or downwards the allowances for transportation beyond the free delivery zones, at the lowest rates for customary and generally available means of transportation.

(2) To determine and publish orders announcing the maximum amounts which carlot or trucklot receivers may add to their maximum prices for deliveries made within the free delivery zone at that wholesale re-

ceiving point, and to adjust upwards or downwards the maximum markups established for sales by carlot or trucklot receivers ex car, ex truck, ex dock, or ex terminal sales platform, or at auction. However, any upward adjustment that is made under this paragraph shall not exceed the maximum markup established for sales by carlot or trucklot receivers ex store or ex warehouse.

(h) *Record keeping and notification requirements.* Every sale by any person to intermediate sellers shall be accompanied by a notification in writing showing the date of the sale, the names and addresses of the seller and buyer, the quantity being sold and total price charged. When the total actual price includes brokerage, commission, freight, trucking, refrigeration, or any other charge or fee recognized by this Appendix, the notice shall also set forth the nature of such charges, where the giving of such information is not inconsistent with state law.

(i) *Weights.* (1) All weighing and packing of citrus fruits by growers and country shippers shall be done in accordance with customary weighing and packing practices and the requirements of the applicable State Agricultural Code.

(ii) The provisions of section 1 (f) (5) shall apply to those containers of citrus fruits whose maximum prices named in the applicable table in paragraph (c) are stated on a per pound basis.

This amendment shall become effective February 23, 1944, as to maximum prices, f. o. b. shipping point and March 9, 1944, as to all other maximum prices. (56 Stat. 23, 765, Pub. Law 151; 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681)

NOTE: For the purposes of determining the percentage of baked products baked by institutional users, Form R-1307 Supplement contains the question: "Of the total number of each of the following baked products that you served in December 1942 what percentage of each did you buy?" This question is intended for the purpose of determining the amount of baked goods which the institutional user himself baked on the assumption that all baked products served which he did not buy were products which he baked. For example, if an institutional user reported that he bought 35% of the baked products which he served, it is taken to indicate that he baked the remaining 65%.

In determining the percentage of all baked products that the user himself baked, the percentage of the total number of items that he baked in each of the 6 categories listed in the parentheses is to be found and the average of those percentages is considered to be the percentage of all baked products that he himself baked.

PART 1381—SOFTWOOD LUMBER

[MPR 513]

YELLOW CYPRESS LUMBER

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. Such specifications and standards as are used in this regulation were, prior to such use, in general use in the industry. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

§ 1381.103 *Maximum prices for yellow cypress lumber.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, Maximum Price Regulation No. 513 (Yellow Cypress Lumber), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1381.103, issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Prices higher than maximum prohibited.* (a) On and after February 26, 1944, regardless of any contract or other obligation, no person shall sell or buy for direct-mill shipment, or deliver or receive on direct-mill shipment, any yellow cypress lumber at prices higher than the ceiling prices fixed by this regulation; and no person shall agree, offer or attempt to do any of these things.

(b) Prices lower than maximum may, of course, be charged and paid.

SEC. 2. *To what products and transactions this regulation applies.*—(a) *Products covered.* This regulation covers, under the term "yellow cypress lumber" all items of cypress lumber of all species (except tidewater red which is subject to Maximum Price Regulation 412¹), whether the item is specifically named in the price tables or not.

(b) *What transactions are covered.* This regulation covers, under the term "sales for direct-mill shipment", all sales of yellow cypress lumber, no matter who the seller is, and regardless of the quantity involved, except sales of yellow cypress lumber which were part of the regular stock of a distribution yard at the time the sale was made.

(c) *How to tell a mill from a distribution yard.* The term "mill", as used here, covers what are known in the trade as sawmills, planing mills, and concentration yards. Three types of establishments are described below: The first, (1), a typical sawmill or planing mill; the second, (2) a typical concentration yard; and the third (3), a typical distribution yard. An establishment which resembles (1) or (2) more than it does (3) is considered a mill, and one which resembles (3) more than it does (1) or (2) is considered a distribution yard.

(1) "A typical sawmill or planing mill" is an establishment which is chiefly engaged in manufacturing lumber from logs or rough lumber by sawing or planing; which is located in or near a lumber producing area; which makes and sells yellow cypress lumber.

(2) "A typical concentration yard" is an establishment which concentrates and prepares lumber for commercial shipment, which keeps in stock yellow cypress lumber, which has its lumber brought in chiefly in rough green form by truck from small local sawmills and sells chiefly for rail or full truckload shipment, and which has been located at its particular site to be near the lumber producing area.

(3) "A typical distribution yard" is a wholesale or retail lumber yard which gets lumber from mills or other yards; unloads, sorts, and resells or redistributes it; which regularly maintains a varied stock of lumber from different regions; which gets its lumber, except for local species, mostly by rail and sells mostly for truck shipment; which is equipped to make quick deliveries of many different items of lumber; and which has been located at its particular site in order to be near a lumber consuming area.

(4) *New yards or changed status.* In order to prevent violation of this regulation by unnecessary routing through yards, the Office of Price Administration will not recognize distribution yards, either new or resulting from a change in operations, set up after December 31, 1942, unless the yard writes to the Lumber Branch of the Office of Price Administration, Washington, D. C. and proves that it satisfies the requirements of the definition and that the purpose is not to get around this regulation by means of unnecessary yard business. Until approval is received, the new yard cannot consider itself a distribution yard for the purpose of this regulation.

(5) "CPA contract yards". "CPA yards", as defined in Second Revised Maximum Price Regulation 215,² are considered distribution yards, regardless of the above requirements.

SEC. 3. *Basic prices.* The maximum f. o. b. mill prices for yellow cypress lumber are set forth in the price tables in section 18.

SEC. 4. *Cash discount.* If cash is paid the maximum price must be reduced by the seller's August 1941 cash discount. When a seller was not in business in August 1941, 2 percent cash discount for payment in 10 days shall be allowed. On specific written allocations issued by the Office of Chief of Engineers, War Department, the terms 30 days net may be used by the seller regardless of his established practice.

SEC. 5. *Deduction on sales of rough lumber by certain mills.* In sales of all items of yellow cypress lumber in rough form, except timbers, where shipment originates at a sawmill which has no planing mill or which customarily sells the yellow cypress lumber produced by it in rough form, the maximum prices set forth in the price tables of this regulation:

(a) Shall include delivery within a radius of 30 miles, or

(b) Shall be reduced \$2.50 per MBM where the purchaser himself makes the pick-up at the mill, or

¹ 8 F.R. 8712, 12406.

² 8 F.R. 14145; 9 F.R. 221.

(c) Shall be reduced \$2.50 per M'BM before making the transportation additions provided in section 8 where the seller makes delivery over 30 miles.

Sec. 6. Addition for direct-mill retail sales. An addition of \$3.50 per thousand board feet may be made by a mill or concentration yard on a sale of 2,000 feet board measure or less only within a radius of 25 miles of the seller's establishment to any consumer or buyer who does not purchase for resale, where the shipment originates at a mill.

Sec. 7 Lumber not graded by seller. If the seller himself does not specify the exact grades and items contained in a shipment, and furnish an invoice showing the exact footage of each grade and item sold, based on his own measurement and inspection, the maximum price is either:

(a) 10% below the maximum prices for the grades shown in the buyer's inspection; or

(b) the maximum price for the lowest grade in the shipment.

In both cases, the seller must furnish free delivery to the buyer's yard, plant, or other destination, up to a distance of 30 miles. Or if the buyer makes the pick-up at the mill, the maximum price must be reduced \$2.50 to compensate for non-delivery. If delivery is made over 30 miles, the regular transportation additions permitted by Section 8 must be reduced by \$2.50 per M'BM.

Note that these deductions apply regardless of who the purchaser is. The mill cannot sell to the box plant or the retail yard for more than he can to the concentrator, or vice versa.

Sec. 8. Transportation charges—(a) Rail charges. (1) Only two methods of selling are recognized by this regulation. Any other method is prohibited, as a device to evade the ceiling by manipulation of freight.

The two permitted methods are: on a delivered basis using the estimated weights in section 19 or on an f. o. b. mill basis with actual freight (figured, of course, on actual weights) to be paid by the purchaser.

The two methods may not be combined in a single transaction; that is, a seller may not sell on a basis which gives him the benefit of favorable estimated weights but requires the use of actual weights on items where estimated weights would be unfavorable to him.

(2) The estimated green weights may be used only when green lumber is actually specified and shipped.

(3) The transportation charge, when estimated weights are used, must be evened out to the nearest quarter-dollar per M'BM (or nearest 5 cents per 1,000 pieces of lath).

(b) *Common or contract carrier (other than rail).* Where transportation is by common or contract carrier (other than rail) the only rule is that actual cost of transportation may be added to the f. o. b. mill ceiling.

(c) *Private truck.* When shipment is by truck owned or controlled by the seller, the following amounts may be added for

transportation: For distances up to and including 10 miles, \$1.50 per M'BM, over 10 and up to and including 20 miles, \$2.00 per M'BM and over 20 and up to and including 30 miles, \$2.50 per M'BM. Where the distance is greater than 30 miles, the seller may charge the amount of the railroad charge at the carload rate for the most similar haul or \$3.00 per M'BM, whichever is greater. Distance, as used in this paragraph, means the distance from the mill to the point of destination as measured by the speedometer. No addition may be made for the return trip.

(d) *Truck delivery after rail haul.* When truck delivery to yard or job site follows a rail haul, and is specified in the order, the actual cost of truck delivery may be added. This may include the actual cost of handling and reloading involved in transfer from rail cars to trucks.

(e) *All-truck haul.* When an all-truck haul ends in delivery to the job site, no special addition may be made above the charges provided in paragraphs (b) and (c) of this section.

Sec. 9. Grades, services and extras not specifically priced—(a) Conditions. If a seller wishes to sell a grade which is not specifically priced in the price tables, or wishes to make an addition for special workings, specifications, services, or other extras for which additions are not specifically permitted, he must apply to the Lumber Branch, Office of Price Administration, Washington, D. C., for a maximum price. He must provide the following information:

(1) The requested price;

(2) A complete description of the item to be priced;

(3) The price differential between it and the most comparable item in the price tables, between January 1 and August 1, 1941, from the seller's own records or if that is impossible, from the experience of the trade. If no established price differential existed, a detailed analysis of comparative value should be furnished.

(4) A true copy of the order or of customer's inquiry on the basis of which the application has been submitted.

(5) A statement by the purchaser that none of the items specifically priced in the regulation will serve the purpose for which the stock is intended to be used, which purpose is to be stated; and that it has been his custom to purchase lumber on this special specification.

(b) *Approval.* In each case where a special price is approved, an authorization number will be assigned which must appear on all final invoices covering shipments at the special price. Quotations and deliveries may not be made at the requested price until the price has been approved. Action on the request may be made by letter or telegram.

(c) *Cancellation.* A special price will be cancelled whenever it is found that the grounds on which the price was granted do not exist, or that lumber shipped on the special price is not up to specification, or that the special price or a class of special prices is endangering

the general level of prices of yellow cypress lumber.

Sec. 10. What the invoice must contain—(a) Price. All invoices must contain a sufficiently complete description of the lumber to show whether the price is proper or not. Any working, specification, or extra which affects the maximum f. o. b. mill or delivered prices must be mentioned in the description. The amount added for these does not have to be separately shown.

(b) *Charges for transportation.* In all delivered sales, the invoice must contain the:

(1) Point of origin of shipment;

(2) Destination;

(3) Rail rate, if estimated weights are used; otherwise the actual amount added for transportation;

(4) The words "Direct-mill shipment."

(c) *Delivery and related charges.* Any separate charge which the seller is permitted to make for truck delivery after rail haul must be separately shown on the invoice.

(d) *Direct-mill retail sale.* If the "direct-mill retail sale" mark-up is permissible and is added, this must be separately indicated in the invoice.

Sec. 11. Exports. The maximum prices on export sales of yellow cypress lumber are governed by the Second Revised Maximum Export Price Regulation.

Sec. 12. Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment.

Sec. 13. Prohibited practices—(a) General. Any practice which is a device to get the effect of a higher than ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price.

(b) *Specific practices.* The following are some of the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices from what they were in August 1941. This includes decreasing credit periods or making greater charges for extension of credit. In any case, on sales made through the Office of the Chief of Engineers, War Department, terms of 30 days net may be used.

(2) Refusing to ship except in specified or restricted random lengths, or under other circumstances which bring the seller an extra return.

(3) Selling as specified lengths or widths a shipment of lumber which is substantially equivalent to standard or random lengths or widths; or reselling as specified lengths or widths a shipment bought by the seller as standard or random lengths or widths.

(4) Grading as a special grade lumber which can be graded as a standard grade or wrongly or falsely grading or invoicing lumber in any way.

(5) Making additions for special specifications, services, or other extras which are not specifically permitted.

(6) Refusing to sell on an f. o. b. mill basis, and insisting on selling on a delivered basis.

(7) Unnecessarily routing lumber through a distribution yard.

(8) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(9) Making the buyer take something he does not want in order to get what he does want.

(10) Getting a higher price by charging the buyer for ripping or resawing, or charging on the basis of an original size larger than the item actually delivered (for example, charging the price of 4 x 4 ripped to 2 x 4 on a sale and delivery of 2 x 4's) except where the items ordered and delivered are non-standard sizes not specifically priced in the tables. This prohibition has no application where the item resulting from remanufacture is priced higher in the tables than the original larger size.

(11) Making any of the additions contained in the footnotes to the tables in section 18 to the prices of the various items set forth in the tables unless the purchaser's order expressly requires the working, grade, condition, size, or length for which the additions are permitted.

(12) Making an addition for double end trimming when standard lengths are ordered and shipped.

(c) *Adding commission to ceiling prohibited.* It is unlawful for any person to charge, receive, or pay a commission for the service of procuring (including buying, selling or locating lumber, or for any related service such as "expediting") which does not involve actual physical handling of lumber, if the commission plus the purchase price results in a total payment by the buyer which is higher than the maximum price of the lumber. For purposes of this regulation, a commission is any compensation, however designated, which is paid for the procurement of lumber. This prohibition has no application to the case of a bona fide employer-employee relationship where the employee serves only one employer, in so far as lumber procurement is concerned, and where the compensation paid by the employer is a fixed salary and is not based directly or indirectly on the quantity, price or value of the lumber in connection with which the service is rendered.

SEC. 14. *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* (See Procedural Regulation No. 6¹).

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural

Regulation No. 1², issued by the Office of Price Administration.

(c) In treating with petitions for amendment or applications for adjustment, consideration will not be given to log and bolt costs which are higher than the applicable maximum purchase prices for logs and bolts established in Maximum Price Regulation 348,³ Logs and Bolts, or any revision or amendment of that regulation. This rule shall be followed regardless of whether the petitioner gets logs and bolts by purchasing them, logging his own standing timber, contracting for the logging of his own standing timber, or any other means. All petitions in any way based on the cost of logs or bolts must show the actual cost to the petitioner of logs and bolts received at his plant during the three months immediately prior to filing the petition, and the cost which would have been incurred by the petitioner if all of these logs and bolts had been purchased by him at ceiling prices. To figure these ceiling prices the petitioner should refer to the regulation which fixes the maximum prices for purchases and sales of the kinds of logs and bolts received at his plant.

SEC. 15. *Records.* All sellers of yellow cypress lumber must keep, for two years,

¹ 7 F.R. 8961; 8 F.R. 3313, 3533.

² 7 F.R. 16115, 16198, 16204, 16297; 9 F.R. 220, 392, 343, 402, 452, 538, 539, 574, 682, 792.

records which show a complete description of the items of lumber sold, the name and address of the buyer, the date of the sale and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought 5,000 feet board measure or more of yellow cypress lumber.

SEC. 16. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as Amended.

SEC. 17. *Licensing.* The provisions of Licensing Order No. 1,⁴ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license, or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 18. *Price tables.* The maximum prices for yellow cypress lumber, f. o. b. mill per 1,000 feet board measure (or per 1,000 pieces of lath) shall be as follows:

- S1S, S2S, add \$3.00.
- S3S, S4S, S1S1E, S2S & M, shiplap, grooved roofing, add \$4.50.
- Casing, base, jambs, sill stock, casket moulding or any other pattern stock, (except moulding), add \$6.00. For lots of less than 1,000 feet board measure any pattern (except moulding), add a flat \$5.00 machine set up charge.

For grade:

- Heart face selects, add to selects, \$5.00 for 4/4 and 5/4; \$14.00 for 6/4; \$23.00 for 8/4 and thicker.
- No. 2 shop, all thicknesses, deduct \$10.00, from No. 1 shop prices.

For size:

- For any average width, charge the specified width prices for the widths shipped.
- Extra standard thickness or width other than American Lumber Standards, add \$1.50 when stock is dressed clean. No addition may be made for extra standard thickness or width, hit or miss dressing.

For length:

- For precision cutting to a specified exact length, with tolerance of not more than 1/4" allowed, add \$1.50. No addition is permitted for customary double end trimming.
- For any specified average length, except odd lengths, 16' or longer, charge the specified length prices for the lengths shipped.
- Specified lengths, add to Standard length prices:

	16'	18'	20'
4/4, 5/4, 6/4, 8/4, all grades (except box)	\$5.00	\$7.50	\$10.00
10/4 and thicker, boat and tank stock and F. A. S.	5.00	10.00	10.00
10/4 and thicker selects, No. 1 shop	5.00	7.50	10.00
Box, all thicknesses	3.00	3.00	5.00

- Any length 6' or shorter, cut to a specified exact length, all grades (except No. 1 Shop and Box) charge the Standard length price and add \$1.50 for each necessary cross cut, but the total charge may not exceed \$6.00 and must be based on the nearest Standard multiple length. No additional charge may be made for precision cutting. If length breaks on even one half foot, compute footage on actual length, otherwise compute on 6' breaks, on the next break above. This footnote covers lengths under 6' in No. 1 Shop and under 4' in Box.
- No additional charge may be made when 18' and 20' are excluded from standard lengths, either at request of buyer or through inability of seller to supply.
(For other working, condition, grade and handling additions and deductions, see table (11)).

At the time of issuance of the ration the Board shall note on the cover of the

ration book or on the folder the name and address of the person to whom the ration is issued. If the term of the lease remaining from the date of issuance of the ration is less than three months, the Board shall issue coupons only in sufficient number to provide the allowed mileage for the remaining term of the lease, and shall remove from any ration book issued all coupons in excess of such number. In such a case the ration shall expire on the date on which the lease terminates, and the Board shall not note an earliest renewal date on the book or folder issued, but shall write on the outside front cover of the book or folder the date on which the lease terminates, and that the ration will expire on that date.

21. Section 1394.7856 (c) (3) is amended to read as follows:

(3) In the case of a vehicle available for public rental, if the term of the lease remaining from the date of issuance of the ration is less than three months, the Board shall issue coupons in sufficient number to allow the allowed mileage for only the remaining term of the lease and shall write on the outside front cover of the ration book or on the folder the date on which the lease terminates, and that the book will expire on that date.

22. Section 1394.7902 is amended to read as follows:

§ 1394.7902 *Non-highway ration coupons.* (a) Class E and R coupons shall be issued as non-highway rations. Class E and R coupons shall each have a value of one unit. Class E and R book coupons shall authorize the transfer of gasoline to a consumer from the validity date which shall be noted on such books by the Board until such rations or books expire or are revoked. Serially numbered Class E and R coupons issued in strip form, shall authorize the transfer of gasoline from the validity date which shall be noted by the Board on the folder which it issues with such coupons, until such rations or coupons expire or are revoked.

(b) Each non-highway ration issued in coupons for use with a motorboat for non-occupational purposes shall be so indicated on the cover of the ration book or on the identifying folder.

23. Section 1394.7903 is amended to read as follows:

§ 1394.7903 *Application for non-highway rations.* Application for a non-highway ration shall be made to a Board on Form OPA R-537. Application may be signed by an agent. The applicant shall state the information required by such form and the amount of gasoline needed for non-highway use during the three-month period, or if the use is in connection with farming, during the six-month period, following the date on which the ration is required, and the non-highway purpose or purposes for which such gasoline is needed.

24. Section 1394.7904 (a) is amended to read as follows:

(a) *General rules for issuance.* The Board shall determine the amount of gasoline required for the three- or six-month period referred to in § 1394.7903

(b), and, subject to the provisions of paragraphs (b), (c) and (d) of this section, shall issue to the applicant a sufficient number of Class E or R coupons to enable the applicant to acquire the amount of gasoline determined by the Board to be necessary for such period, subject to the following provisions:

(1) The Board may refuse to issue such ration for the operation of machinery or equipment, other than boats or airplanes, used for athletic, recreational or amusement purposes, if in its opinion, taking into consideration the gasoline supply available, the use of gasoline for such purposes is not essential to the welfare of the area which it serves.

(2) If the ration is issued in the form of a ration book or books, the Board shall remove from the book or books and cancel any coupons in excess of the number allotted.

(3) If the ration is issued in the form of strip coupons, coupons of the same class must bear serial numbers in consecutive order. The Board shall issue a folder for each class of coupons issued and shall note on the folder the serial numbers of the coupons issued, the date of issuance, the earliest renewal date, the name and address of the applicant and the non-highway purpose or purposes for which the ration is issued.

(4) If the ration is issued for use in connection with farming, the Board shall issue appropriate ration evidences sufficient to provide either a part of the amount of gasoline determined for the six-month period or the total amount. If the Board has issued ration evidences sufficient to provide only part of the gasoline determined, it shall issue, upon the request of the applicant, additional ration evidences in an amount not to exceed the remainder of the ration originally determined or such portion of such remainder as the Board determines the applicant requires for the balance of the ration period.

25. Section 1394.7904 (b) is amended by inserting a headnote to read as follows: "Allowance of a non-highway ration for use with a boat for a non-occupational purpose."

26. Section 1394.7904 (b) (2) is amended by substituting for the second sentence the following two sentences:

The Board shall, in such a case, issue coupons in a separate ration book, or coupons bearing serial numbers in consecutive order and accompanied by a separate folder in sufficient number to provide the quantity of gasoline so determined. The Board shall note on such ration book or folder, in addition to the usual information required, that the coupons are issued for a non-occupational purpose.

27. Section 1394.7904 (c) is amended by inserting the following headnote: "Allowance of non-highway ration for operation of a gasoline engine."

28. Section 1394.7904 (d) is amended to read as follows:

(d) *Limitation on issuance of non-occupational ration.* Except as provided in § 1394.8102 (f) (1), no non-occupational ration may be issued for an inboard motorboat or an outboard motor during any three or six-month period

for which such a ration has already been issued.

29. Section 1394.8004 (b) (4) is added to read as follows:

(4) If the ration is issued in coupons in strip form, the serial numbers of the coupons issued.

30. Section 1394.8004 (c) is amended to read as follows:

(c) *Notations by Board on non-highway rations.* At the time of issuance of any non-highway ration represented by coupons, the Board shall make a notation on the cover of the ration book or folder of the name and address of the applicant, the date on which the ration becomes valid for use and the earliest renewal date. If serially numbered coupons are issued, the Board shall also note on the folder the numbers of the coupons.

31. Section 1394.8153 (b) is amended to read as follows:

(b) *Coupons issued for non-highway rations.* Bulk transfer may be made in exchange for Class E and R coupons under the following conditions:

(1) (i) In the case of a coupon issued in a ration book, the transferor at the time of transfer, must require presentation of the book and must detach therefrom coupons having an aggregate unit value equal to the number of gallons of gasoline transferred. No transfer may be made pursuant to this subparagraph in exchange for a coupon detached prior to the presentation of the coupon book to the transferor.

(ii) In the case of serially numbered coupons issued in strips in connection with an identifying folder, the transferor must require presentation of the coupons and identifying folder at the time of transfer. No transfer may be made pursuant to this subparagraph in exchange for a coupon which does not bear a serial number included in the sequence of serial numbers specified on the cover of the identifying folder.

(2) No transfer in exchange for Class E or R coupons may be made into the fuel tank of, or knowingly made for use in, a registered motor vehicle, commercial motor vehicle, or a motor vehicle held by a motor vehicle dealer for sale or resale or operated on dealer or other interchangeable plates, nor shall any such transfer be made into, or knowingly made for use in, the fuel supply tank of machinery or equipment mounted on a commercial motor vehicle.

(3) Transfer may be made only in exchange for coupons bearing the notations required by § 1394.8004 (e).

This amendment shall become effective the 25th day of February 1944.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

MISCELLANEOUS AMENDMENTS TO CHAPTER

PART 2—ADJUDICATION: VETERANS' CLAIMS

Filing of Claims and Supporting Evidence

§ 2.1026 *Application for benefits.* (a) A properly completed and executed Form 526, 526a or 526b, upon receipt by the Veterans' Administration, constitutes an application for benefits indicated below and will be adjudicated under the applicable laws:

Form 526: Veteran's application for Pension or Compensation for Disability Resulting from Service in the Active Military or Naval Forces of the United States.

Form 526a: Application for Compensation or Pension under Section 31, Public No. 141, 73d Congress, section 12, Public No. 866, 76th Congress, and section 2, paragraph 4, Public No. 16, 78th Congress.

Form 526b: Veteran's Application for Pension for Disability not the Result of Service in the Active Military or Naval Service of the United States.

(b) Applications for compensation, pension, or burial allowance shall be sworn to before a court of record, or some officer thereof having custody of its seal, or before some officer who has authority to administer oaths for general purposes, or employees of the Veterans' Administration to whom authority to administer oaths has been properly delegated, or, if the person is in the active service at the time of making application, before an officer duly authorized by the Army, Navy, Marine Corps, or Coast Guard to administer oaths for the purposes of military or naval administration. In connection with the execution of applications in foreign countries, see § 2.1032. (February 21, 1944) (54 Stat. 1197, 57 Stat. 44, 554-560; 38 U.S.C. 501a)

§ 2.1027 *Informal claims.* Any communication from or action by a claimant or his duly authorized representative, which clearly indicates an intent to apply for benefits under Public No. 2, No. 141, No. 484, 73d Congress, as amended, or Public No. 196, 76th Congress, as amended by sections 7 and 8, Public No. 866, 76th Congress, may be considered an informal claim for compensation or pension, or an informal claim under section 31, Public No. 141, 73d Congress, as amended by section 12, Public No. 866, 76th Congress. When an informal claim is received and a formal application is forwarded for execution by the claimant, such application shall be considered as evidence necessary to complete the initial application, and unless a formal application is received within one year from the date it was transmitted for execution by the claimant, no award shall be made by virtue of such informal claim. If received within one year in such instances, it will be considered filed as of the date of receipt of the informal claim by the Veterans' Administration. However, a communication received from a service organization, pension attorney, or pension agent may not be accepted as an informal claim, if a power of attorney was not executed at the time the communication was written. In cases not covered by this rule, where the probability of an informal claim appears to be indicated, but the facts are too obscure or complicated for determination, the file will be referred to the director of the service concerned for decision upon the facts in the particular case. When benefits are being resumed under § 3.1299, and an informal claim has been filed for a disability incurred or aggravated in the second period of service, the requirements of the second and third sentences of this paragraph are not for application. (February 21, 1944) (54 Stat. 1196, 1197, 57 Stat. 554-560; 38 U.S.C. 501a, 703b)

Determinations as to Basic Entitlement

§ 2.1066 *"Line of duty" under §§ 35.011 and 35.012.* (a) Sections 35.011 and 35.012 require that a disabling condition for which pension or compensation is claimed, shall have been incurred in line of duty, except in cases where a right to pension or compensation is preserved by § 35.04. The records of service departments will be accepted in determining line of duty status of diseases and injuries, unless considerations set forth in § 35.10 (h) may warrant a different

finding. Any evidence which is properly admissible or acceptable according to the practice of the Veterans' Administration, and which is of a nature competent to demonstrate that the incurrence of disability was or was not in line of duty, according to conditions specified in § 35.10 (h) may be used as a basis for adjudications, despite any official military or naval record with respect to manner of incurrence. These determinations will be made by the officials of the Veterans' Administration charged with the responsibility of deciding claims for monetary or other benefits in the administration of laws in which line of duty is a factor. Such determinations will be final, subject to appeal procedure, except when the determination of the service department with respect to line of duty in the case of a living or deceased veteran is not concurred in by those having the foregoing responsibility and the file shows that the service department's determination was approved personally by the Secretary of the Navy, Secretary of War, or by the Secretary of the Treasury. Generally, for purposes of naval administration the only cases involving line of duty of personnel of the Navy or Marine Corps that are required to be referred to the Secretary of the Navy for his personal determination are those pertaining to the retirement of officers of the Navy and Marine Corps and the reserve components of these services; there is no procedure in the War Department by which line of duty determinations are normally brought to the personal attention of the Secretary of War, but in the exceptional case calling for his personal action, the record will reveal it. Such excepted cases, in which the line of duty determination has in fact been personally approved by any one of the Department Secretaries named as unmistakably shown by the context of the record, will be forwarded to the director of the service concerned together with a full statement of the reasons why the line of duty decision as made by the Department Secretary should not be accepted. If the decision of the Department Secretary is concurred in by the director of the service concerned the case will be returned to the agency of original jurisdiction for adjudication accordingly. But if such determination is not concurred in, the case will be forwarded to the assistant administrator. If the assistant administrator concurs in the Department's de-

termination the file will be returned to the office having jurisdiction for adjudication accordingly. But if he does not concur the case will be referred to the Administrator for his determination. Whenever a decision is rendered by the board of veterans appeals in which that board does not concur in the decision as to line of duty approved personally by the Secretary of War, Navy or Treasury, such decision will be referred to the Administrator for his determination. For the purpose of ascertaining line of duty status for periods of time prior to June 16, 1938, continuous periods of leave will be considered as one extended leave in determining whether a leave of absence is of such duration as to interfere materially with the routine performance of duty. The provisions of § 35.10 (h) will be observed carefully in effecting all adjudication where a question of incurrence of disease or injury in line of duty is pertinent: *Provided*, That on or after June 16, 1938, the date of approval of Public No. 648, 75th Congress, the fact that the injury was suffered or the disease was contracted while the person on whose account benefits are claimed was on authorized leave (irrespective of the duration of such leave) will not of itself bar a finding that the disability or death resulting therefrom was incurred in line of duty. If the injury was suffered or the disease was contracted while the person who served was away from camp or his post of duty, the burden is upon the claimant to establish line of duty. If, however, the injury was suffered or the disease was contracted while the person who served was at camp or his post of duty, even though in a leave status, the burden is upon the Government to show that the disability or death resulting therefrom was not in line of duty.

(b) Whenever the veterans claims service, the dependents claim service, or the insurance service has made a determination of the question of line of duty status for the purpose of compensation, pension or insurance, under the provisions of § 2.1066 and § 4.2046, such determination shall be binding upon any of these services for any of the purposes mentioned, unless it be clearly and unmistakably in error. This determination shall not be subject to question by reason of a difference of opinion, except as to whether such determination is clearly and unmistakably erroneous, in which case such question shall be referred to the Administrator for his determination. (February 21, 1944) (48 Stat. 8, 9, 57 Stat. 554-560; 38 U.S.C. 701, 707)

PART 3—ADJUDICATION: DISALLOWANCE AND AWARDS

§ 3.1299 *Action where veteran returns to active duty status.* Compensation or pension may not be paid concurrently with the receipt of active service pay, and where any person in receipt of compensation or pension returns to active duty status with any of the armed forces of the United States, or active service in the United States Coast Guard, benefits will be suspended effective the day preceding

reentrance. Payments may be resumed the day following release from active duty, provided the person is otherwise entitled. If a disability is incurred or aggravated in the second period of service, the benefits payable on account thereof cannot be paid unless a claim therefor is filed. (See § 2.1027.) The period of active service must be verified by Form 3101 series. (February 21, 1944) (48 Stat. 9, 57 Stat. 554-560; 38 U.S.C. 707)

COLORADO-BIG THOMPSON PROJECT
REVOCATION OF FIRST FORM WITHDRAWAL
DECEMBER 31, 1943.

The SECRETARY OF THE INTERIOR.

SIR: By departmental order of November 27, 1943, certain described lands in the State of Colorado previously withdrawn for reclamation purposes as provided by section 3 of the act of June 17, 1902 (32 Stat. 388), in connection with the Colorado-Big Thompson project, were released from reclamation withdrawal.

The aforementioned departmental order contains a typographical error in that the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Township 1 North, Range 74 West, Sixth Principal Meridian, Colorado, has been described as the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section 14.

It is therefore recommended that this departmental order be amended, effective as of November 27, 1943, to correctly show this tract as the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 14, Township 1 North, Range 74 West, Sixth Principal Meridian, Colorado.

Respectfully,

H. W. BASHORE,
Commissioner.

I concur: February 3, 1944.

FRED W. JOHNSON,
Commissioner of the General
Land Office.

The foregoing recommendation is hereby approved, as recommended, and the Commissioner of the General Land Office will cause the records of his office to be noted accordingly.

(1) Where maximum prices are governed by § 1347.452 of Maximum Price Regulation 225. The price set forth in § 1347.452 with the addition of a sum equal to the increase in the cost of producing the commodity or rendering the service due to wage increases to seller's employees authorized by the National War Labor Board by an order issued subsequent to March 31, 1942.

(2) Where maximum prices are governed by § 1347.453 of Maximum Price Regulation 225. WEST TEXAS UTILITIES CO. AND PECOS VALLEY POWER & LIGHT CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of February, A. D. 1944.

Notice is hereby given that a joint declaration or application (or both) has been filed with this Commission by West Texas Utilities Company (West Texas) and Pecos Valley Power & Light Company (Pecos Valley), indirect subsidiaries of The Middle West Corporation, a registered holding company, pursuant to sections 9 (a) (1), 10 and 11 (e) of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder.

All interested persons are referred to said declaration or application which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Pursuant to an Opinion and Order of this Commission issued on January 25,

No. 37—14

1943 (Holding Company Act Release No. 4068), West Texas was permitted (as a step toward acquisition of property and assets of Pecos Valley) to offer to purchase all outstanding securities of Pecos Valley as follows:

1. First Mortgage Bonds held by the public in the principal amount of \$963,000 at 76% thereof.
2. Income Debentures held by the public in the principal amount of \$358,000 at 15% thereof.
3. Common stock held by the public in the amount of 3,582.66 shares at \$1 per share.
4. First Mortgage Bonds in the principal amount of \$313,000, Income Debentures in the principal amount of \$369,500 and common stock in the amount of 3,892.34 shares, all held by The Middle West Corporation for the sum of \$238,349.11 (equal to 76% of the principal amount of the bonds held plus \$496.11 transfer tax applicable to the debentures and common stock being transferred).

Pursuant to such order, West Texas has acquired (as of January 31, 1944) all outstanding securities of Pecos Valley except the following securities held by the public:

- \$26,500 (2.08%) principal amount of First Mortgage Bonds.
- \$14,250 (1.96%) principal amount of Income Debentures.
- 286,511 shares (8.83%) of Common Stock.

West Texas now proposes to acquire at public or private sale all the assets and property of Pecos Valley at a price equal to

- (a) The face amount of the net free assets of Pecos Valley and
- (b) \$937,860 for property which is subject to an existing mortgage (less depreciation on such property computed at the rate of 3% per annum from January 1, 1943, and less any moneys resulting from sales of property subject to such mortgage, deposited with The New York Trust Company, Trustee under said mortgage subsequent to January 1, 1943).

It is estimated that as a result of payment of said proposed price, the remaining public security holders of Pecos Valley will receive the following amounts (equal to amount permitted to be offered by said Order of January 25, 1943): bondholders 76% and debenture holders 15% of the principal amount of securities held, and stockholders \$1 for each share held.

It appearing to this Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said application or declaration shall not be granted or permitted to become effective except pursuant to further order of this Commission, *It is ordered*, That a hearing on said matters under the applicable provisions of said act and the Rules of this Commission thereunder be held on March 6, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which said hearing will be held;

It is further ordered, That the Secretary of this Commission shall serve notice of said hearing by mailing a copy of this order to West Texas Utilities Company and Pecos Valley Power & Light Company and that said notice of said hearing be given to all persons by publication of a copy of this order in the FEDERAL REGISTER. Any person desiring to be heard in connection with these proceedings or proposing to intervene herein shall file with the Secretary of the Commission on or before February 28, 1944, his request or application therefor as provided by Rule XVII of the Rules of Practice of this Commission;

It is further ordered, That Willis E. Monty or any other officer or officers of this Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of the issues presented by said application or declaration, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed transactions are in the public interest or in the interest of investors and consumers and whether in all respects the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the Rules, Regulations and Orders promulgated thereunder;

2. Whether, and to what extent it is necessary or appropriate in the public interest to impose terms or conditions in regard to the accounts of West Texas Utilities Company, or otherwise in regard to the proposed transactions.

CONSOLIDATED ELECTRIC AND GAS CO. AND CENTRAL ILLINOIS ELECTRIC AND GAS CO.

SUPPLEMENTAL ORDER APPROVING PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of February 1944.

Consolidated Electric and Gas Company, a registered holding company, and its subsidiary, Central Illinois Electric and Gas Co., having heretofore filed applications and declarations pursuant to the applicable sections of the Public Utility Holding Company Act of 1935, regarding the proposed reclassification of the common stock of said subsidiary company (all of which stock is owned by the parent company) and certain inter-company transactions incident to the consummation of such reclassification, which applications and declarations were, respectively, granted and permitted to become effective by order entered herein on February 4, 1944;

Consolidated Electric and Gas Company having also filed a plan pursuant

to section 11 (e) of the act whereby it proposed to divest itself of all interest in Central Illinois Electric and Gas Co. by the sale through competitive bidding of all of the reclassified stock of said subsidiary company and to apply the proceeds of such sale, to the extent required for such purpose, in the retirement of certain bonds assumed by said holding company and known as Federated Utilities, Inc., First Lien Collateral Trust 5½% Bonds, due March 1, 1957, by payment of the principal amount of such bonds plus accrued interest to a fixed date after appropriate public notice of the impending retirement of such bonds but without payment of the premium payable upon voluntary redemption of such bonds under the applicable indenture;

The Commission having heretofore made further findings herein and entered a further order finding that portion of said plan relating to the sale by Consolidated Electric and Gas Company of the reclassified common stock of Central Illinois Electric and Gas Co. and the deposit of the proceeds of such sale with the trustee under the indenture securing the above-identified assumed bonds to be necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to all persons affected thereby, except in respect of certain fees proposed to be paid to Central Republic Company concerning which fees jurisdiction was reserved, and approving said portion of said plan, subject to said reservation of jurisdiction, but further reserving jurisdiction in respect of the definitive application of the proceeds of such sale after the deposit thereof with said trustee;

The Commission having now made and filed further supplementary findings in respect of the application of the proceeds of said sale as proposed, and finding the application of that portion of the proceeds of said sale required for such purpose to the retirement of all the outstanding bonds originally issued by Federated Utilities, Inc., and assumed by Consolidated Electric and Gas Company, in the manner proposed in the plan, as amended, and without the payment of any redemption premium, is necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to all persons affected thereby;

Consolidated Electric and Gas Company also proposing that any portion of the proceeds of the sale of said reclassified common stock of Central Illinois Electric and Gas Co. remaining after retirement of the assumed bonds above mentioned shall be utilized in the retirement of the bonds of Consolidated Electric and Gas Company known as its Collateral Trust Bonds, due August 1, 1957, and August 1, 1962, such retirement to be effected by purchases of such bonds in the open market, and the Commission having made no adverse findings in regard to the proposal last described but having found that certain terms and conditions should be imposed in connection therewith;

It is hereby ordered, That said plan so submitted by Consolidated Electric and Gas Company pursuant to section 11 (e) of the act be, and the same is here-

by in all respects approved, except in respect of the reasonableness of the fees proposed to be paid to Central Republic Company concerning which the reservation of jurisdiction heretofore made is continued in effect pending the further order, or orders, of the Commission;

It is further ordered, That the proposal of Consolidated Electric and Gas Company that any proceeds of the sale of the common stock of Central Illinois Electric and Gas Co. which are not expended in the retirement of the assumed bonds above mentioned shall be applied to the acquisition and retirement of the bonds of Consolidated Electric and Gas Company known as Consolidated Electric and Gas Company Collateral Trust Bonds, due August 1, 1957, and August 1, 1962, to be effected through purchases of such bonds in the open market, be, and the same is hereby permitted to become effective as a declaration by Consolidated Electric and Gas Company pursuant to section 12 (c) of the act;

Provided, however, And the authorization hereby given in respect to the acquisition and retirement of the Collateral Trust Bonds last mentioned be, and the same is hereby, subject to the following terms and conditions:

(1) That at least seven days before purchases are commenced, Consolidated shall advise by letter each known holder of the Consolidated bonds fully with respect to its intention to make such purchases and the method to be employed, the form of such letter to be submitted to the Commission at least three days prior to release;

(2) That Consolidated shall not solicit or cause to be solicited from individual bondholders the sale of any bonds to the company;

(3) That no purchases shall be made directly or indirectly from persons or corporations in any way associated or affiliated with Consolidated; and

(4) That Consolidated shall furnish to the Commission, promptly after the last day of each month, a schedule showing for each day covered by such report the number of bonds purchased, the prices at which purchased, and the name of the broker through whom purchased.

Consolidated having requested that the order of this Commission concerning the application of the proceeds of the above described sale conform to the formal requirements of sections 373 (a), 371 (b), 371 (f), and 1808 (f) of the Internal Revenue Code, as amended;

It is further ordered, That Consolidated apply the proceeds from the sale of the common stock described above in the retirement of the Federated Utilities, Inc., First Lien Collateral Trust 5½% Bonds, due March 1, 1957 (assumed by Consolidated) and the Collateral Trust Bonds issued by Consolidated (in the manner hereinabove set forth), which application of such proceeds is hereby found to be necessary or appropriate to the integration or simplification of the Consolidated holding company system.

MARKET AGENCIES AT ST. LOUIS NATIONAL STOCK YARDS

NOTICE OF PETITION FOR MODIFICATION

In re market agencies at St. Louis National Stock Yards (formerly styled as Alexander Conover & Company et al.), respondents.

By orders dated February 28, 1933, November 5, 1936, and December 6, 1937, made pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 1940 ed. 181 et seq.), maximum rates and charges for selling and buying livestock on commission by market agencies operating at the St. Louis National Stock Yards, National Stock Yards, Illinois, were prescribed. By an order dated December 26, 1942, pursuant to a petition filed by the respondent market agencies, the Assistant to the Secretary of Agriculture, with the consent of the respondents, temporarily suspended the provisions of the orders of February 28, 1933, November 5, 1936, and December 6, 1937, for a trial period.

By a supplemental order dated December 27, 1943, the provisions of the orders of February 28, 1933, November 5, 1936, and December 6, 1937, were again suspended for a further period to and including December 31, 1944, unless such order is modified by further order prior to the expiration of such period. Under the terms of the orders of December 26, 1942, and December 27, 1943, the respondents have been permitted to file, assess, and collect higher rates than the maximum prescribed in the prior orders.

On or about February 4, 1944, the respondent market agencies filed a petition seeking a modification of the order of December 27, 1943, so as to permit the respondents to modify the rate structure of their tariff, in order to denominate cattle and calves as separate species for rate purposes. The effect of such proposed modification would result in some additional revenue to the respondents because its effect would be to place consignments of livestock containing cattle and calves into rate brackets calling for the assessment of higher rates.

It appears that public notice should be given to all interested persons of the request of the respondents and to afford all interested persons, including patrons of the respondents, an opportunity to manifest their desire to be heard on the matter.

Therefore, notice is hereby given to the public and to all interested persons of the request of the respondents for a modification of the order of December 27, 1943, and for the purpose of affording said respondents and all other interested persons, including patrons of the respondents, an opportunity to be heard upon the matters covered in the petition.

All interested persons who desire to be heard shall notify the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of the publication of this order.

Copies hereof shall be served on the respondents by registered mail or in person.

Done at Washington, D. C., this 19th day of February 1944.
